Only by the Hand of God By H J
(Duke) Petmecky CW03 USN,
Retired and Earl Boutell “This is
a war story; a tale that takes you
along with me through 18
months in the jungles, rivers,

canals, and military facilities in Viet Nam. It was a period of conflict in which I was exposed to, not only the risk of death, but to the powerful influence of my Creator.” Harrowing, exciting and sorrowful by turns, Only by the Hand of God is a powerful story of loss and redemption. Written with a sure hand full of vigor and also a touch of rough humor by H J (Duke) Petmecky and his co-author Earl Boutell, this book offers its readers a graphic, colorful, life-changing experience.

Internal Combustion Engine in Theory and Practice, second edition, revised, Volume 1 Thermodynamics, Fluid Flow, Performance
This revised edition of Taylor's classic work on the internal-combustion engine incorporates changes and additions in engine design and control that have been brought on by the world petroleum crisis, the

subsequent emphasis on fuel economy, and the legal restraints on air pollution. The fundamentals and the topical organization, however, remain the same. The analytic rather than merely descriptive treatment of actual engine cycles, the exhaustive studies of air capacity, heat flow, friction, and the effects of cylinder size, and the emphasis on application have been preserved. These are the basic qualities that have made Taylor's work indispensable to more than one generation of engineers and designers of internal-combustion engines, as well as to teachers and graduate students in the fields of power, internal-combustion engineering, and general machine

design.

The Work Boat MIT Press

Includes Part 1, Number 1: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - June)

A Catalog of Motion Pictures and Filmstrips for Sale by the National Audiovisual Center

Seeing is Understanding.

The first VISUAL guide to marine diesel systems on recreational boats. Step-by-step instructions in clear, simple drawings explain how to maintain, winterize and

recommission all parts of the system - fuel deck fill - engine - batteries - transmission - stern gland - propeller. Book one of a new series. Canadian author is a sailor and marine mechanic cruising aboard his 36-foot steel-hulled Chevrier sloop.
