Expanded and revised, the Second Edition of the Algebra Survival Guide unleashes its power for a new generation of students. Now that the Common Core Standards have changed how math is taught, this 2nd edition aligns its content to these broad new guidelines. The new Edition also adds advanced content. In its XTREME ALGEBRA section, the new edition tackles the topics of Functions, Inequalities and the Advanced Coordinate Plane, and it teaches story problems in all three areas. These additions update the book for today's elementary and secondary students; they also provide additional support for adults taking algebra in their return to college. Plus, with its newly expanded index and glossary, the 2nd Edition makes all of its content easy to find. The book retains the cartoons, analogies and conversational format that brought out praise from all corners and garnered the book both a Parents Choice Commendation and a Golden Porch Award for pedagogical excellence.

households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

In the mid-1950s, an innovative group of women at General Motors (dubbed the Damsels of Design by marketers) and their counterparts at Ford, Hudson, Studebaker, Packard, and Tucker changed automotive history forever. Read the untold story of the women who excelled in the Mad Men era of automobile and industrial design. Recruited by top CEOs at automotive companies, they developed many of the products we take for granted today. Learn about Helene Rother, who designed the instrument panel, hardware, and seat construction for midcentury Cadillacs; Elizabeth Thatcher Oros, the first female trained in industrial design; and discover the history behind the child safety seat latch and car doors with lights. An extraordinary story of exceptional women, Damsels in Design sheds light on those who have too long been in the shadows.
