Product Safety & Liability Reporter

Haynes Publications As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover,

Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up." Chilton's General Motors TrailBlazer, 2002-09 Repair Manual

Haynes Manuals N. America, Incorporated Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation). Many 2011-12 automobiles have "chin-to-chest" head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway. Ethanol and

hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers. GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago. You can save \$2,000 by cutting freight fees and "administrative" charges. Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea. Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki. **Chevrolet S-10 & GMC Sonoma Pick-ups Haynes Repair Manual** Saint Martin's Griffin. Much has been written about the men and women who shaped the field of advertising, some of whom became legends in the industry. However, the contributions of African-American women to the advertising business have largely been omitted from these accounts. Yet, evidence reveals some trailblazing African-American women who

launched their careers during the 1960s Mad Men era, and went on to achieve prominent careers. This unique book chronicles the nature and significance of these women's accomplishments, examines the opportunities and challenges they experienced and explores how they coped with the extensive inequities common in the advertising profession. Using a biographical narrative approach, this book examines the careers of these important African-American women who not only achieved managerial positions in major mainstream advertising agencies but also established successful agencies bearing their own names. Based on their words and memories, this study reveals experiences which are intriguing, triumphant, bittersweet and sometimes tragic. These women's stories comprise a vital part of the historical narrative on women and African-Americans in advertising and will be instructive not only to scholars of advertising and marketing history but to future generations of advertising

professionals.
