GNU make - Error Messages

The purpose of this License is to make a manual, textbook, or other written document free in the sense of freedom: to assure everyone the effective freedom to copy and redistribute it, with or without modifying it, either commercially or noncommercially. Secondarily, this License preserves for the author and publisher a way to get credit for their work, while not being considered responsible ...

Make (software) - Wikipedia

This manual describes GNU make, which was implemented by Richard Stallman and Roland McGrath. Development since Version 3.76 has been handled by Paul D. Smith. GNU make conforms to section 6.2 of IEEE

Standard 1003.2-1992 (POSIX.2).

GNU Make

These errors are not really make errors at all. They mean that a program that make invoked as part of a command script returned a non-0 error code (`Error NN'), which make interprets as failure, or it exited in some other abnormal fashion (with a signal of some type). See section Errors in Commands .

GNU make conforms to section 6.2 of IEEE Standard 1003.2-1992 (POSIX.2). Our examples show C programs, since they are most common, but you can use make with any programming language whose compiler can be run with a shell command. Indeed, make is not limited to programs. You can use it to describe any task where some files must be updated automatically from others whenever the others change.

GNU make: GNU make
Documentation for Make is available online, as is documentation for most GNU software. You may also find more information about Make by running info make or man make , or by looking at /usr/share/doc/make/ , /usr/local/doc/make/ , or similar directories on your system.
