I'm a math intervention (remediation) teacher in a middle school in Massachusetts. Both my colleague and I used this 5th grade math minutes book to begin our 5th, 6th, and sometimes even 7th grade classes. Substitute teachers found it useful, too. Each one-page daily worksheet has a variety of math problems.

My son is skipping 5th grade and starting
6th this year. We had to cover 5th grade
math over the summer. I looked at several
other books and the did not have
everything that is covered in 5th grade
even though they were supposed to be
5th grade level. We were able to cover
everything quickly yet thoroughly.

I like the variety of math exercises contained in this book, particularly those that relate to algebraic manipulations and problem solving. I use this book to develop my own math white papers to explain the language of math and the "why" and "how" of solving select abstract problems (from the book) for/with my grand-children, who just stated 5th grade this term.
