Myths of Greece and Rome Infobase Publishing

This classic book comprehensively details the myths of Greece and Rome. Beautifully illustrated and with many chapters including 'Neptune', 'The Trojan War' and an 'Analysis of Myths', this book would be an excellent addition to the bookshelf of anyone with an interest in the subject. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Myths & Legends of Ancient Greece and Rome iUniverse

First Greece, then Rome, the Greeks were not the only people to produce myths. The Romans also had a rich mythology of their own and, while much of it was derived from their neighbors, the Greeks, it still defined the rich history of the Roman people as they eventually grew into an empire. Myths are the reflection of the ancient's view of the world, they often appear as simple stories filled with valiant heroes, maidens in distress, and a host of all-powerful gods. The gods of the Greeks and Romans were anthropomorphic, exhibiting many human qualities such as love, hate, and jealousy, and because of this, the people of Rome and Greece were able to see themselves in these tales and understand their relationship to the rest of the world as well their connection to the gods. The lesson often to be learned was that one must meet one's destiny with strength, determination, and nobility. These myths enabled an individual to stand against the ills and hardships of an unforgiving universe. In spite of their constant disagreements and battles, the gods and humankind had to stand together against the "monsters and giants" of the world, or more simply, the "forces of disorder and wanton destruction." Myths, whether Greek, Roman, were concerned with the relationship between the gods and humans, are different in this regard from fairytales and folktales. For all people, in many ways, myths made life bearable by providing security. They should not be regarded as simple stories for, in both Greece and Rome, they dealt with important issues: the creation of the world, the nature of good and evil, and even the afterlife. And, for this reason, these tales have stood the test of time and become part of our present day culture. One only needs look at the names of our planets to see this: Mercury, Venus, Mars, Jupiter, Saturn,

Neptune, Uranus and even poor little Pluto are all named for Roman gods. The Book comprises 106 Greek and Roman mythology tales.

The Mythology of Greece and Rome with Special Reference to Its Use in Art Wellfleet Press

It is with this in mind that we are republishing this volume now in an affordable, high-quality edition complete with a specially commissioned new introduction on Greek and Roman mythology.

Myths and Legends of Ancient Greece and Rome Britannica Educational Publishing

A classic of mythology, long prized for its accurate retelling of the principal myths of Greece and Rome, and for its commentary on their origins and significance. The collection begins with myths involving the gods — Jupiter, Apollo, Venus, Mars, others — and ends with the adventures of Ulysses and Aeneas. The aim of this book is to present a complete and entertaining account of Grecian and Roman mythology in such a manner that the student will appreciate its great influence upon literature and art. These myths, an inexhaustible fund of inspiration for the poets and artists of the past, have also inspired many noted modern works. To impress this fact forcibly upon the student, appropriate quotations from the poetical writings of all ages, from Hesiod's "Works and Days," to Tennyson's "Oenone," have been inserted in the text. The myths are told as graphically and accurately as possible, great care being taken, however, to avoid the more repulsive features of heathen mythology; and when two or more versions of the same myth occur, the preference has invariably been given to the most popular, that is to say, to the one which has inspired the greatest works.

An account of the gods of Homer's Olympus.

Mythology e-artnow

Before entering upon the many strange beliefs of the ancient Greeks, and the extraordinary number of gods they worshipped, we must first consider what kind of beings these divinities were. In appearance, the gods were supposed to resemble mortals, whom, however, they far surpassed in beauty, grandeur, and strength; they were also more commanding in stature, height being considered by the Greeks an attribute of beauty in man or woman. They resembled human beings in their feelings and habits, intermarrying and having children, and requiring daily nourishment to recruit their strength, and refreshing sleep to restore their energies. Their blood, a bright ethereal fluid called Ichor, never engendered disease, and, when shed, had the power of producing new life. The Greeks believed that the mental qualifications of their gods were of a much higher order than those of men, but nevertheless, as we shall see, they were not considered to be exempt from human passions, and we frequently behold them actuated by revenge, deceit, and jealousy. They, however, always punish the evil-doer, and visit with dire calamities any impious mortal who dares to neglect their worship or despise their rites. We often hear of them visiting mankind and partaking of their hospitality, and not unfrequently both gods and goddesses become attached to mortals, with whom they unite themselves, the offspring of these unions being called heroes or demi-gods, who were usually renowned for their great strength and courage. But although there were so many points of resemblance between gods and men, there remained the one great characteristic distinction, viz., that the gods enjoyed immortality. Still, they were not invulnerable, and we often hear of them being wounded, and suffering in consequence such exquisite torture that they have earnestly prayed to be deprived of their privilege of immortality. The gods knew no limitation of time or space, being able to transport themselves to incredible distances with the speed of thought. They possessed the power of rendering themselves invisible at will, and could assume the

forms of men or animals as it suited their convenience. They could also transform human beings into trees, stones, animals, &c., either as a punishment for their misdeeds, or as a means of protecting the individual, thus transformed, from impending danger. Their robes were like those worn by mortals, but were perfect in form and much finer in texture. Their weapons also resembled those used by mankind; we hear of spears, shields, helmets, bows and arrows, &c., being employed by the gods. Each deity possessed a beautiful chariot, which, drawn by horses or other animals of celestial breed, conveyed them rapidly over land and sea according to their pleasure. Most of these divinities lived on the summit of Mount Olympus, each possessing his or her individual habitation, and all meeting together on festive occasions in the council-chamber of the gods, where their banquets were enlivened by the sweet strains of Apollo's lyre, whilst the beautiful voices of the Muses poured forth their rich melodies to his harmonious accompaniment. Magnificent temples were erected to their honour, where they were worshipped with the greatest solemnity; rich gifts were presented to them, and animals, and indeed sometimes human beings, were sacrificed on their altars.

The Mythology of Greece and Rome Forgotten Books

"Myths of Greece and Rome" is a complete story of the Greek pantheon made by one of the most prominent classicists, Jane Harrison. By presenting the main Greek gods, Harrison tries to go way back to the past and trace the roots of the ancient Greek belief in the time before they even lived in Europe. She argues that the Greek goddesses emerged from native Pelasgian tutelary spirits, and much of the male pantheon was imposed by Indo-Europeans._x000D_ Contents_x000D_ The Gods of Homer's Olympus_x000D_ Zeus (Jove, Jupiter)_x000D_ Hera_x000D_ Athena (Minerva)_x000D_ Aphrodite (Venus)_x000D_ Artemis (Diana)_x000D_ Apollo (Phæbus)_x000D_ Ares (Mars)_x000D_ Hermes (Mercury)_x000D_ Poseidon (Neptune)_x000D_ The Mother of the Gods_x000D_ Demeter and Persephone (Ceres and Proserpine)_x000D_ Dionysos_x000D_ Eros

Roman Gods & Goddesses e-artnow

Giving Western literature and art many of its most enduring themes and archetypes, Greek mythology and the gods and goddesses at its core are a fundamental part of the popular imagination. At the heart of Greek mythology are exciting stories of drama, action, and adventure featuring gods and goddesses, who, while physically superior to humans, share many of their weaknesses. Readers will be introduced to the many figures once believed to populate Mount Olympus as well as related concepts and facts about the Greek mythological tradition.
