In Jenny Goes to Sea, our heroine makes her passage on the good ship Sea Queen with her master, Captain Tinker, and her adopted brothers, tiger cat Edward, and black-and-white cat Checkers. Once on board, they meet the adventurous ship's cat, Jack Tar. Leaving New York's harbor, the friends travel to Africa and Asia, and return through the Panama Canal. At each port they meet a colorful local cat who shows them around. Jenny and her pals have their fortunes told by an Abyssinian cat in Zanzibar; dance the sailor's hornpipe with Bobo the Burmese, another ship's cat who was left behind, in Singapore; and float with Siamese cat Dara in a sampan boat on a Bangkok river—a truly exotic adventure. Ages 6 & up Salt to the Sea Penguin A little Golden Book.

What If There Were No Sea Otters? HarperCollins

From the author of Mayflower, Valiant Ambition, and In the Hurricane's Eye--the riveting bestseller tells the story of the true events that inspired Melville's Moby-Dick. Winner of the National Book Award, Nathaniel Philbrick's book is a fantastic saga of survival and adventure, steeped in the lore

of whaling, with deep resonance in American literature and history. In 1820, the whaleship Essex was rammed and sunk by an angry sperm whale, leaving the desperate crew to drift for more than ninety days in three tiny boats. Nathaniel Philbrick uses little-known documents and vivid details about the Nantucket whaling tradition to reveal the chilling facts of this infamous maritime disaster. In the Heart of the Sea, recently adapted into a major feature film starring Chris Hemsworth, is a book for the ages.

[Wish for a Fish](#) Balzer + Bray

Discusses the ocean ecosystem and the role of the sea otter as a keystone species in helping to maintain it, describing the otter's place on the food chain and what would happen if the sea otter were to become extinct.

1, 2, 3, Who's Cleaning the Sea? A Counting Picture Book About Protecting Our Planet Seven and eight, is it too late? Not quite yet, but let's not wait! 8 fishing nets on the ocean floor, dragged by an octopus up to the shore. The sea creatures are working hard to clean their living environment of ocean pollution. Inspired by powerful visuals of ocean pollution, this book will teach your child not only numbers and how to count but also the importance of taking care of our environment. Children will love learning how little changes they make can protect our planet. 1,2,3, Who's Cleaning the Sea is the second book from award-winning and Amazon best-selling author Janina Rossiter in her 'concept picture book' series. Janina Rossiter has again combined two subjects with imaginative drawings, resulting in a beautiful book that children and adults will enjoy reading. This picture book will teach your child to associate numbers with their quantities while also learning about the importance of keeping plastics and other pollutants out of our oceans. Younger children will be able to count along and slightly older children (ages 4-6) will learn to make logical connections between numbers and facts. Readers of all ages will enjoy the pictures, the story, and the message. The original hand-drawn illustrations in black ink marker on a background of acrylic art are exquisite and will entice young readers to turn the pages as they discover the fascinating world captured by the illustrator's imagination. Filled with glorious

paintings, this highly imaginative picture book will not only aid children with learning to count, they will also learn about protecting the environment as they take a journey under the sea. Truly delightful. Samantha V é rant, author of HOW TO MAKE A FRENCH FAMILY Stunning images of sea creatures cleaning the ocean form the backdrop of this fun and educational counting book that young children (and adults too!) are sure to enjoy. The first hilarious volume of comedy writer, journalist, radio DJ and screenwriter Danny Baker's memoir, and now the inspiration for the major BBC series CRADLE TO GRAVE, starring Peter Kay. 'And what was our life like in this noisy, dangerous and polluted industrial pock-mark wedged into one of the capital's toughest neighbourhoods? It was, of course, utterly magnificent and I'd give anything to climb inside it again for just one day.' In the first volume of his memoirs, Danny Baker brings his early years to life as only he knows how. With his trademark humour and eye for a killer anecdote, he takes us all the way from the council house in south-east London that he shared with his mum Betty and dad 'Spud' (played by Peter Kay) to the music-biz excesses of Los Angeles, where he famously interviewed Michael Jackson for the NME. Laugh-out-loud funny, it is also an affectionate but unsentimental hymn to a bygone era.

We sailed a very old wooden ketch six thousand miles from Vancouver Island to New Zealand, a feat we felt was singularly impressive since we had, virtually, to learn how to sail and navigate along the way with no charts and inadequate sextant knowledge. A journey of faith, into the unknown that really became an adventure, exciting and sometimes terrifying. Become inspired, as we were, to escape the rat race, to drop everything and do something outrageous and rewarding and perhaps, like me, you will see the hand of God upon whose palm you journey. This is the story of the "Rainbow," a converted Royal Navy ship's pinnace built in Newcastle on Tyne in 1891 that became the magic carpet for a couple of young people who were willing to forgo a life of safety and security to find themselves through a voyage to 'the Real World'.

'Like to spend a night in the Goblin?' The Swallows are staying on the Suffolk coast while they wait for their father to return home from China. But although the harbour is bursting with bobbing yachts, barges and steamers, this year there's no chance of any sailing for the landlocked Swallows. That is until they rescue young Jim Brading and his boat the Goblin from a sticky situation and to their delight are recruited as crew members. Mother agrees they can go, on one condition – they absolutely must not sail out past Beach End Buoy and into the open sea... Includes exclusive content: In the 'Backstory' you can test your knowledge of the book, and learn all about the art of sailing! China's turn toward the sea is evident in its stunning rise in global shipbuilding markets, its expanding merchant marine, its wide reach of offshore energy exploration, its growing fishing fleet, and its increasingly modern navy. This comprehensive assessment of China's potential as a genuine maritime power is both unbiased and apolitical. Unlike other works that view China in isolation, it places China in a larger world historical context. The authors, all authorities on their historical eras, examine cases of attempted maritime transformation through the ages, from the Persian Empire to the Soviet Union, and determine the reasons for success or failure.
