**Entanglement** The New Press  
Winner of the Victor Turner Prize for  
Ethnographic Writing 2017 Journeying around the  
globe, through past and present, Emma Tarlo  
unravels the intriguing story of human hair and  
what it tells us about ourselves and society. When  
it's not attached to your head, your very own hair  
takes on a disconcerting quality. Suddenly, it is  
strange. And yet hair finds its way into all manner  
of unexpected places, far from our heads,

including cosmetics, clothes, ropes, personal and  
public collections, and even food. Whether treated  
as waste or as gift, relic, sacred offering or product  
in a billion-dollar industry for wigs and hair  
extensions, hair has many stories to tell. Collected  
from Hindu temples and Buddhist nunneries and  
salvaged by the strand from waste heaps and the  
combs of long-haired women, hair flows into the  
industry from many sources. Entering this strange  
world, Emma Tarlo tracks hair's movement across  
India, Myanmar, China, Africa, the United States,  
Britain and Europe, meeting people whose  
livelihoods depend on this singular commodity.  
Whether its journey ends in an Afro hair fair, a  
Jewish wig parlour, fashion salon or hair loss  
clinic, hair is oddly revealing of the lives it touches.

The Giver, the 1994 Newbery Medal winner, has become one of the most influential novels of our time. The haunting story centers on twelve-year-old Jonas, who lives in a seemingly ideal, if colorless, world of conformity and contentment. Not until he is given his life assignment as the Receiver of Memory does he begin to understand the dark, complex secrets behind his fragile community. This movie tie-in edition features cover art from the movie and exclusive Q&A with members of the cast, including Taylor Swift, Brenton Thwaites and Cameron Monaghan.

**Teaching When the World Is on Fire HarperOne**

An epic story of the American wheat harvest, the politics of food, and the culture of the Great Plains For over one hundred years, the Mockett family has owned a seven-thousand-acre wheat farm in the panhandle of Nebraska, where Marie Mutsuki Mockett 's father was raised. Mockett, who grew up in bohemian Carmel, California, with her father and her Japanese mother, knew little about

farming when she inherited this land. Her father had all but forsworn it. In American Harvest, Mockett accompanies a group of evangelical Christian wheat harvesters through the heartland at the invitation of Eric Wolgemuth, the conservative farmer who has cut her family ' s fields for decades. As Mockett follows Wolgemuth ' s crew on the trail of ripening wheat from Texas to Idaho, they contemplate what Wolgemuth refers to as " the divide, " inadvertently peeling back layers of the American story to expose its contradictions and unhealed wounds. She joins the crew in the fields, attends church, and struggles to adapt to the rhythms of rural life, all the while continually reminded of her own status as a person who signals " not white, " but who people she encounters can ' t quite categorize. American Harvest is an extraordinary evocation of the land and a thoughtful exploration of ingrained beliefs, from evangelical skepticism of evolution to cosmopolitan assumptions about food production and farming. With exquisite lyricism and humanity, this astonishing book attempts to reconcile competing versions of our national story.

**Why Fish Don't Exist Simon and Schuster**

In this timely, insightful, and darkly funny investigation, the acclaimed author of Against Love asks: what does living in dystopic times do to our ability to love each other and the world? COVID-19 has produced new taxonomies of love, intimacy, and vulnerability. Will its cultural afterlife be as lasting as that of HIV, which reshaped consciousness about sex and love even after AIDS itself had been beaten back by medical science? Will COVID end up making us more relationally conservative, as some think HIV did within gay culture? Will it send us fleeing into emotional silos or coupled cocoons, despite the fact that, pre-COVID, domestic coupledness had been steadily losing fans? Just as COVID revealed our nation to itself, so

---

did it hold a mirror up to our relationships. In *Love in the Time of Contagion*, Laura Kipnis weaves (often hilariously) her own (ambivalent) coupled lockdown experiences together with those of others and sets them against a larger backdrop: the politics of the virus, economic disparities, changing gender relations, and the ongoing institutional crack-ups prompted by #MeToo and Black Lives Matter, mapping their effects on the everyday routines and occasional solaces of love and sex.

Return from Tomorrow Farrar, Straus and Giroux

"All around, for miles and miles in every direction, in streets and shops and houses, real life was going on, oblivious; but here a dead man sat, the full stop at the end of his own sentence, with a little still pocket of attention focused fiercely and minutely on him. Why him? And why here? Slider felt the questions attaching themselves to him like shackles, chaining him to this scene, to a well-known process of effort, worry and responsibility." Detective Inspector Bill Slider returns in *Gone*

Tomorrow, another thrilling mystery from the prolific pen of Cynthia Harrod-Eagles. In the heart of Shepherd's Bush, London-Slider's patch-a-groundskeeper discovers a well-dressed man seated on a children's swing. Problem is, the man is dead, a single, perfect stab-wound to the heart. Even more mysteriously, someone has clearly rummaged through the man's pockets-but left behind over a thousand pounds in cash. Initial investigations confront a wall of silence, but this only fuels Slider and his team's determination to solve the case before it gets taken off their hands and they face failure on their own doorstep. The task is made no easier by Slider's qualms over his long-distance romance, or by Detective Superintendent Fred "The Syrup" Porson's mysterious absence from work for the first time in as long as Slider remembers. As Slider unearths the victim's sordid lifestyle of debts, drugs, and dodgy deals, the trail leads the police through London's neighborhoods, from the seedy pubs of Shepherd's Bush through the brothels of Notting Hill to the mansions of

Holland Park. As they probe deeper the body count rises and Slider suspects the machinations of a crime baron who will stop at nothing to keep his identity hidden.

This acclaimed post-apocalyptic novel of hope and terror from an award-winning author "pairs well with 1984 or *The Handmaid's Tale*" and includes a foreword by N. K. Jemisin (John Green, *New York Times*). When global climate change and economic crises lead to social chaos in the early 2020s, California becomes full of dangers, from pervasive water shortage to masses of vagabonds who will do anything to live to see another day. Fifteen-year-old Lauren Olamina lives inside a gated community with her preacher father, family, and neighbors, sheltered from the surrounding anarchy. In a society where any vulnerability is a risk, she suffers from hyperempathy, a debilitating sensitivity to others' emotions. Precocious and clear-eyed, Lauren must make her voice heard in order to protect her loved ones from the imminent disasters her small

• THE BLOCKBUSTER JACK REACHER SERIES THAT INSPIRED TWO MAJOR MOTION PICTURES AND THE STREAMING SERIES REACHER "High-powered, intricately wrought suspense." —Janet Maslin, The

New York Times New York City. Two in the morning. A subway car heading uptown. Jack Reacher, plus five other passengers. Four are okay. The fifth isn't. And if you think Reacher isn't going to get involved . . . then you don't know Jack. Susan Mark, the fifth passenger, had a big secret, and her plain little life was being watched in Washington, and California, and Afghanistan—by dozens of people with one thing in common: They're all lying to Reacher. A little. A lot. Or just enough to get him killed. A race has begun through the streets of Manhattan, a maze crowded with violent, skilled soldiers on all sides of a shadow war. For Jack Reacher, a man who trusts no one and likes it that way, the finish line comes when you finally get face-to-face and look your worst enemy in the eye. "Propulsive . . . "Eloquently written and packed full of

suspense, debut author Cosimano strikes gold with this page-turning thriller that will have teens chomping at the bit to get to the end." —School Library Journal, starred review Nearly Boswell knows how to keep secrets. Living in a DC trailer park, she knows better than to share anything that would make her a target with her classmates. Like her mother's job as an exotic dancer, her obsession with the personal ads, and especially the emotions she can taste when she brushes against someone's skin. But when a serial killer goes on a killing spree and starts attacking students, leaving cryptic ads in the newspaper that only Nearly can decipher, she confides in the one person she shouldn't trust: the new guy at school—a reformed bad boy working undercover for the police, doing surveillance. . . on her. Nearly might be the one person who can put all the clues together, and if she doesn't figure it all out soon—she'll be next.  
The Giver Crown Currency  
America's largest city generates garbage in torrents—11,000 tons from households each day on average. But New Yorkers don't give it much attention. They leave their trash on the curb or drop it in a litter basket, and promptly forget about it. And why

---

not? On a schedule so regular you could almost set your watch by it, someone always comes to take it away. But who, exactly, is that someone? And why is he—or she—so unknown? In *Picking Up*, the anthropologist Robin Nagle introduces us to the men and women of New York City's Department of Sanitation and makes clear why this small army of uniformed workers is the most important labor force on the streets. Seeking to understand every aspect of the Department's mission, Nagle accompanied crews on their routes, questioned supervisors and commissioners, and listened to story after story about blizzards, hazardous wastes, and the insults of everyday New Yorkers. But the more time she spent with the DSNY, the more Nagle realized that observing wasn't quite enough—so she joined the force herself. Driving the hulking trucks, she obtained an insider's perspective on the complex kinships, arcane rules, and obscure lingo unique to the realm of sanitation workers. Nagle chronicles New York City's four-hundred-year struggle with trash, and traces the

city's waste-management efforts from a time when filth overwhelmed the streets to the far more rigorous practices of today, when the Big Apple is as clean as it's ever been.

Throughout, Nagle reveals the many unexpected ways in which sanitation workers stand between our seemingly well-ordered lives and the sea of refuse that would otherwise overwhelm us. In the process, she changes the way we understand cities—and ourselves within them.

#### *The Secret Life of Groceries*

Houghton Mifflin Harcourt

Out of sight, out of mind ... Into our trash cans go dead batteries, dirty diapers, bygone burritos, broken toys, tattered socks, eight-track cassettes, scratched CDs, banana peels... But where do these things go next? In a country that consumes and then casts off more and more, what actually happens to the things we throw away? In *Garbage Land*, acclaimed science writer Elizabeth Royte leads us on the wild adventure that begins once our trash hits the bottom of the can. Along the way, we meet an odor chemist who explains why trash smells so bad;

garbage fairies and recycling gurus; neighbors of massive waste dumps; CEOs making fortunes by encouraging waste or encouraging recycling—often both at the same time; scientists trying to revive our most polluted places; fertilizer fanatics and adventurers who kayak amid sewage; paper people, steel people, aluminum people, plastic people, and even a guy who swears by recycling human waste. With a wink and a nod and a tightly clasped nose, Royte takes us on a bizarre cultural tour through slime, stench, and heat—in other words, through the back end of our ever-more supersized lifestyles. By showing us what happens to the things we've "disposed of," Royte reminds us that our decisions about consumption and waste have a very real impact—and that unless we undertake radical change, the garbage we create will always be with us: in the air we breathe, the water we drink, and the food we consume. Radiantly written and boldly reported, *Garbage Land* is a brilliant exploration into the soiled heart of the American trash can. *Subterranean Kerouac* Atria Books  
Rationing: it ' s a word—and idea—that

---

people often loathe and fear. Health care expert Henry Aaron has compared mentioning the possibility of rationing to “shouting an obscenity in church.” Yet societies in fact ration food, water, medical care, and fuel all the time, with those who can pay the most getting the most. As Nobel Prize-winning economist Amartya Sen has said, the results can be “thoroughly unequal and nasty.” In *Any Way You Slice It*, Stan Cox shows that rationing is not just a quaint practice restricted to World War II memoirs and 1970s gas station lines. Instead, he persuasively argues that rationing is a vital concept for our fragile present, an era of dwindling resources and environmental crises. *Any Way You Slice It* takes us on a fascinating search for alternative ways of apportioning life’s necessities, from the goal of “fair shares for all” during wartime in the 1940s to present-day water rationing in a Mumbai slum, from the bread shops

of Cairo to the struggle for fairness in American medicine and carbon rationing on Norfolk Island in the Pacific. Cox’s question: can we limit consumption while assuring everyone a fair share? The author of *Losing Our Cool*, the much debated and widely acclaimed examination of air-conditioning’s many impacts, here turns his attention to the politically explosive topic of how we share our planet’s resources.

A NEW YORK TIMES BESTSELLER A GLOBE AND MAIL BESTSELLER A JIMMY FALLON BOOK CLUB PICK In this exhilarating novel by the best-selling author of *The Storied Life of A. J. Fikry* two friends—often in love, but never lovers—come together as creative partners in the world of video game design, where success brings them fame, joy, tragedy, duplicity, and, ultimately, a kind of immortality. “Utterly

brilliant. In this sweeping, gorgeously written novel, Gabrielle Zevin charts the beauty, tenacity, and fragility of human love and creativity. *Tomorrow, and Tomorrow, and Tomorrow* is one of the best books I’ve ever read.” —John Green On a bitter cold day, in the December of his Junior Year at Harvard, Sam Masur exits a subway car and sees, amid the hordes of people waiting on the platform, Sadie Green. He calls her name. For a moment, she pretends she hasn’t heard him, but then, she turns, and a game begins: a legendary collaboration that will launch them to stardom. They borrow money, beg favors, and, before even graduating college, they have created their first blockbuster, *Ichigo*: a game where players can escape the confines of a body and the betrayals of a heart, and where death means nothing more than a chance to restart and play again. This is the story of the perfect worlds Sam and Sadie build, the

---

imperfect world they live in, and of everything that comes after success: Money. Fame. Duplicity. Tragedy. Spanning over thirty years, from Cambridge, Massachusetts, to Venice Beach, California, and lands in between and far beyond, Gabrielle Zevin's *Tomorrow, and Tomorrow, and Tomorrow* is a dazzling and intricately imagined novel that examines the multifarious nature of identity, games as artform, technology and the human experience, disability, failure, the redemptive possibilities in play, and above all, our need to connect: to be loved and to love. Yes, it is a love story, but it is not one you have read before.

*In Green* Gone Wrong

environmental writer Heather

Rogers blasts through the

marketing buzz of big corporations

and asks a simple question: Do today's much-touted "green" products—carbon offsets, organic food, biofuels, and eco-friendly cars and homes—really work? Implicit in efforts to go green is the promise that global warming can be stopped by swapping out dirty goods for "clean" ones. But can earth-friendly products really save the planet? This far-reaching, riveting narrative explores how the most readily available solutions to environmental crisis may be disastrously off the mark. Rogers travels the world tracking how the conversion from a "petro" to a "green" society affects the most fundamental aspects of life—food, shelter, and transportation. Reporting from some of the most remote places on earth, Rogers uncovers shocking results that include massive clear-cutting, destruction of native ecosystems, and grinding poverty. Relying simply on market forces, people with good intentions wanting to just "do something" to help the planet

---

are left feeling confused and powerless. *Green Gone Wrong* reveals a fuller story, taking the reader into forests, fields, factories, and boardrooms around the world to draw out the unintended consequences, inherent obstacles, and successes of eco-friendly consumption. What do the labels "USDA Certified Organic" and "Fair Trade" really mean on a vast South American export-driven organic farm? A superlow-energy "eco-village" in Germany's Black Forest demonstrates that green homes dramatically shrink energy use, so why aren't we using this technology in America? The decisions made in Detroit's executive suites have kept Americans driving gas-guzzling automobiles for decades, even as U.S. automakers have European models that clock twice the mpg. Why won't they sell these cars domestically? And what does carbon offsetting really mean when projects can so easily fail? In one

case thousands of trees planted in drought-plagued Southern India withered and died, releasing any CO2 they were meant to neutralize. Expertly reported, this gripping exposé pieces together a global picture of what's happening in the name of today's environmentalism. *Green Gone Wrong* speaks to anyone interested in climate change and the future of the natural world, as well as those who want to act but are caught not knowing who, or what, to believe to protect the planet. Rogers casts a sober eye on what's working and what's not, fearlessly pushing ahead the debate over how to protect the planet. *Gone Tomorrow* Oneworld Publications  
A veteran New York Times economics correspondent reports from factories nationwide to illustrate the continuing importance of industry for our country. In the 1950s, manufacturing generated nearly 30 percent of US income. But over the decades, that share has gradually declined to less than 12 percent, at the same time that

real estate, finance, and Wall Street trading have grown. While manufacturing's share of the US economy shrinks, it expands in countries such as China and Germany that have a strong industrial policy. Meanwhile Americans are only vaguely aware of the many consequences—including a decline in their self-image as inventive, practical, and effective people—of the loss of that industrial base. Reporting from places where things were and sometimes still are "Made in the USA"—New York, New York; Boston; Detroit; Fort Wayne and Indianapolis, Indiana; Los Angeles; Midland, Michigan; Milwaukee; Philadelphia; St. Louis; and Washington, DC—Louis Uchitelle argues that the government has a crucial role to play in making domestic manufacturing possible. If the Department of Defense subsidizes the manufacture of weapons and war materiel, why shouldn't the government support the industrial base that powers our economy? Combining brilliant reportage with an incisive economic and political argument, *Making It* tells the overlooked story of

---

manufacturing ' s still-vital role in the United States and how it might expand.
