In *Puppetry in Education and Therapy: Unlocking Doors to the Mind and Heart*, one finds enormous variety, ingenuity, and creativity in the types of puppets, and the ways they are used in education and in therapy. Puppeteers, therapists, and educators, articulate what is meant by “puppetry in education” and “puppet therapy” and how it is the same or different from “puppet theatre”. They describe the unique characteristics and theory of puppetry in education and therapy, the skills it takes to be successful in these areas, the skills that are passed on to people who use puppets for personal expression, and how to assess the impact of puppets on learning or behavior change. Twenty-six authors discuss topics such as puppetry and the multiple intelligences; the process versus the product; using puppetry in schools to promote literacy, preserve cultural heritage, and teach music; how puppetry contributes to Core Curriculum Standards, the theoretical underpinnings of therapeutic puppetry, and a range of ways of facilitating growth and development. If you're already using puppets, this book will inspire you to understand your work differently and to explore new possibilities. If you're a teacher or a therapist and you've never used puppets before, it will open a whole world of possibilities. This book illustrates that puppetry arts can affect learning and behavior and that puppets indeed have the power to unlock doors to the mind and heart.

In this second edition of *Becoming a Literacy Leader: Supporting Learning and Change*, author Jennifer Allen reflects on her work as a literacy specialist and how the role has evolved in the decade since she wrote the first edition. Her experiences can apply to all school leaders including principals, coaches, teachers, support staff, and office administrators. Allen focuses on three ideas to describe her work: Layered Leadership, the multitude of supports in place for teachers to encourage learning and change within schools; Shared experiences that develop community and develop common understanding of practices, curriculum, and assessment; Importance of 'rowing in the same direction' in that literacy coaches and leaders stay interconnected and aligned to the goals of the school. Allen knows the challenges of teachers face and advocates literacy coaches implement these layers of support within a school, including in-class support, curriculum support and assessment, study group facilitation, and the cultivation of teacher leadership. In *Becoming a Literacy Leader*, she provides an explicit framework for implementing these layers of coaching and explains how administrators

can use the literacy leader position to build and sustain change within their schools.
