"This no-holds-barred autobiography chronicles the remarkable life of Phil Robertson, the original Duck Commander and Duck Dynasty star, from early childhood through the founding of a family business.Life was always getting in the way of Phil Robertson's passion for duck hunting. An NFL-bound quarterback, Phil made his mark on Louisiana Tech University in the 1960s by playing football and completing his college career with a master's degree in English. But Phil's eyes were not always on the books or the ball; they were usually looking to the sky. Phil grew up with the dream of living the simple life off the land like his forebears, but he soon found himself on a path to self-destruction--leasing a bar, drinking too much, fighting, and wasting his talents. He almost lost it all until he gave his life to God. And then everything changed. Phil's incredible story tells how he followed a calling from God and soon after invented a duck call that would begin an incredible journey to the life he had always dreamed of for himself and his family. With great love for his country, his family, and his maker, Phil has finally found the ingredients to the "good life" he always wanted"--

Faith in the Fight tells a story of religion, soldiering, suffering, and death in the Great War. Recovering the thoughts and experiences of American troops, nurses, and aid workers through their letters, diaries, and memoirs, Jonathan Ebel describes how religion--primarily Christianity--encouraged these young men and women to fight and die, sustained them through war's chaos, and shaped their responses to the war's aftermath. The book reveals the surprising frequency with which Americans who fought viewed the war as a religious challenge that could lead to individual and national redemption. Believing in a "Christianity of the sword," these Americans responded to the war by reasserting their religious faith and proclaiming America God-chosen and righteous in its mission. And while the war sometimes challenged these beliefs, it did not fundamentally alter them. Revising the conventional view that the war was universally disillusioning, Faith in the Fight argues that the war in fact strengthened the religious beliefs of the Americans who fought, and that it helped spark a religiously charged revival of many prewar orthodoxies during a postwar period marked by race riots, labor wars, communist witch hunts, and gender struggles. For many Americans, Ebel argues, the postwar period was actually one of "reillusionment." Demonstrating the deep connections between Christianity and Americans' experience of the First World War, Faith in the Fight encourages us to examine the religious dimensions of America's wars, past and present, and to work toward a deeper understanding of religion and violence in American history.

The straight-faced, funny man of Duck Dyanasty has a real story to tell. Not a repeat of the previous Duck Dynasty books, Jase opens up about his personal family life, his childhood days with a drunken father, and how he came to faith. This open book from Jase may surprise some fans who love him for his dry humor and rivalry with younger brother Willie. This hilarious, yet thoughtful book, is structured around lessons of faith in the blind on topics like respect, passion, forgiveness, generosity, humility, kindness, and honesty. Chapters discuss: the highlights of Jase's memory of the early days with his drunken, disruptive father; his high school days and his strong commitment to not be like Phil had been, opting for total abstinence from drinking and sex; the moment he forgave Phil for being such a terrible father in his younger days; his first hunt with Phil, where he saw an excitement in Phil that he'd never seen before; his first date with Missy, which was a "fake date" to make another girl jealous; and of course, a chapter on Uncle Si, with stories not told in previous books. Other chapters include stories of his brothers, frog hunting and fishing, and his most memorable road trips. And finally, Jase shares a chapter on hunting in heaven. Here, Jase shares his love for the land and our responsibility to care for it. More than a behind-the-scenes look at this beloved Duck Dynasty character, readers will be inspired and encouraged to implement Jase's lessons from the blind into their own lives.

Drawing on her personal experience and knowledge of religious history, Diana Butler Bass ex-amines the contours of the uniquely American relationships between church and state, Christian identity and patriotism, citizenship and congregational life. Broken We Kneel attempts to answer the central question with which so many people are struggling: do Christians owe their deepest allegiance to God or country? In writing both impassioned and historically informed, Bass reflects on current events and political questions that have sharpened the tensions between serious faith and national imperatives. This book incorporates the author's own experience of faith, her voca-tion as a writer and teacher, and her roles as wife, mother, and churchgoer into a larger conver-sation with Christian practice and contemporary political issues. Broken We Kneel is a call to re-member that the core of Christian identity is not always compatible with national political policies. This volume includes a new foreword and reflections on the sixteen years since the publication of the first edition. This second edition of Broken We Kneel includes a powerful new introduction by Rev. Robert W. Lee (author of A Sin By Any Other Name), and new reflections by Diana Butler Bass on the tensions of faith and citizenship, especially regarding race in a post-Charlottesville world. Broken We Kneel is both a lament and a plea for communities of faith to engage important issues. It would make a great group reading book during the upcoming election.

NEW YORK TIMES BESTSELLER The “paradigm-influencing” book (Christianity Today) that is fundamentally transforming our understanding of white evangelicalism in America. Jesus and John Wayne is a sweeping, revisionist history of the last seventy-five years of white evangelicalism, revealing how evangelicals have worked to replace the Jesus of the Gospels with an idol of rugged masculinity and Christian nationalism—or in the words of one modern chaplain, with “a spiritual badass.” As acclaimed scholar Kristin Du Mez explains, the key to understanding this transformation is to recognize the centrality of popular culture in contemporary American evangelicalism. Many of today’s evangelicals might not be theologically astute, but they know their VeggieTales, they’ve read John Eldredge’s Wild at Heart, and they learned about purity before they learned about sex—and they have a silver ring to prove it. Evangelical books, films, music, clothing, and merchandise shape the beliefs of millions. And evangelical culture is teeming with muscular heroes—mythical warriors and rugged soldiers, men like Oliver North, Ronald Reagan, Mel Gibson, and the Duck Dynasty clan, who assert white masculine power in defense of “Christian America.” Chief among these evangelical legends is John Wayne, an icon of a lost time when men were uncowed by political correctness, unafraid to tell it like it was, and did what needed to be done. Challenging the commonly held assumption that the “moral majority” backed Donald Trump in 2016 and 2020 for purely pragmatic reasons, Du Mez reveals that Trump in fact represented the fulfillment, rather than the betrayal, of white evangelicals’ most deeply held values: patriarchy, authoritarian rule, aggressive foreign policy, fear of Islam, ambivalence toward #MeToo, and opposition to Black Lives Matter and the LGBTQ community. A much-needed reexamination of perhaps the most influential subculture in this country, Jesus and John Wayne shows that, far from adhering to biblical principles, modern white evangelicals have remade their faith, with enduring consequences for all Americans.

Travel with revered preacher and author Fred Craddock through his early years as he considers what made him take to the pulpit. "For some reason, I felt I had to say 'Yes' or 'No' to the ministry so I could feel free again. My siblings and friends talked almost casually about options and preferences as to careers, but with no evident sense of urgency. Not so with me. I did not then, nor do I now know whether the burden of choice was a trait of personality, a kind of super-conscientiousness, whether the calling to ministry itself carried a weight, a burden, peculiar to the task itself. Rightly or wrongly, when I thought of possibly becoming a journalist, that would be a choice, 100 percent mine. When I considered becoming a minister, that was not totally my decision; I was responding to God's will for me. Of course, I had been told that journalists, lawyers, teachers, merchants, farmers-all could understand their lives as a vocation, a calling, but what I am telling you is that I perceived, I felt, I experienced the idea of being a preacher as different, and that difference was sobering, even burdensome. That's why advice about not being in a hurry, taking my time, was not helpful even if wise. If it was my decision, why could I not make it now; if it was God's decision, why did not God tell me, or at least tell my father or my mother? I prayed for the ache to leave me." -Excerpt from Reflections on My Call to Preach.

Pastoral Reflections on Life and Ministry Paulist Press

In the face of apparently rampant individualism, there has been a steady call for a return to community and tradition, particularly in religious communities and in recent Christian theology and ethics. The form of contemporary life upheld by modern ideals like freedom and universalism, the story goes, turns out to divide people from each other and from the communal sources of our traditionally moral values. But the call to community too often confuses individualism with individuality, assuming that any appeal to individuality as a value or ideal is a rejection of communal goods, rather than a mode of promoting those goods. What's necessary now is a recovery of the individual that understands individuality to serve community, even in resistance to it. In Transforming Faith, Joshua Daniel offers a fresh reading of H. Richard Niebuhr's theological ethics that provides an account of individuality and individual creativity as both the fruits and reformers of community. What is theologically at stake in Daniel's reconstructive interpretation is the human's existentially resonant relation with God and the christological revitalization of our symbolic and virtuous activity.

Christian popular culture has tremendous influence on many American churchgoers. When we have a choice between studying the Bible and reading novels, downloading movies, or watching television, we become less familiar with Numbers than with Narnia. This book examines popular Christian narratives with rigorous scholarly methods and assumes that they are just as complex, fascinating, and worthy of investigation as the latest secular Netflix series or dystopian novel. While most scholars focus on the religious aspects of Christian texts, this study takes a new approach by analyzing their social responsibility in portraying the complex dynamics of race, class, and gender in a profoundly unequal America. Close readings of six case studies—The Chronicles of Narnia, Francine Rivers's Redeeming Love, Jan Karon's Mitford novels, Left Behind, the films of the Sherwood Baptist Church, and

Duck Dynasty—uncover both harmful stereotypes and Christians serving as leaders in social justice.
