The recent lawsuit against Kinko's Copies for copyright infringement has exposed the confusion and heightened the fear of liability surrounding copyright issues in colleges and universities. This volume offers an enlightening explanation of copyright and the ambiguous concept of fair use as they affect and are affected by higher education. In the first large-scale study of its kind, Kenneth D. Crews surveys the copyright policies of ninety-eight American research universities. His analysis reveals a variety of ways in which universities have responded to—and how they could better manage—the conflicting goals of copyright policies: avoiding infringements while promoting lawful uses that serve teaching and research. He explains in detail the background of copyright law and congressional guidelines affecting familiar uses of photocopies, videotapes, software, and reserve rooms. Crews concludes that most universities are overly conservative in their interpretation of copyright and often neglect their own interests, adding unnecessary costs and

obstacles to the lawful dissemination of information. Copyright, Fair Use, and the Challenge for Universities provides administrators, instructors, lawyers, librarians, and educational leaders a much-needed exegesis of copyright and how it can better serve higher education.

"You Got Into Where?" is the first college admissions guide written by a student who is fresh out of the college admissions process. Learn how I was admitted to schools like the University of Southern California and New York University with full tuition scholarships. The guide features copies of my admissions essay, writing supplement, and activities resume that I used to apply to college the fall of my senior year. Get advice on all the secrets of the admissions process from start to finish. "I can't believe that a 17 year-old has written a college admissions book that is so well-written, clear and accurate. No wonder USC jumped at the chance to have her become their student. My sense of things is that mostly parents read college admissions books; high school students just don't want to take the time. Given what she says and how she says it, I truly believe that teens will rush to read "You Got Into Where?" It is well worth their time." -Marjorie Hansen Shaevitz Author, adMISSION POSSIBLE
