**Good For Enterprise  
Documentation**

Good documentation  
should act as both a  
reference and an  
educator, letting  
developers quickly  
obtain the  
information they are  
looking for at a  
glance, while also  
reading through the  
documentation to

---

glean an understanding of how to integrate the resource/method they are looking at.

Good For Enterprise Documentation

There are sections that have become fundamental to good API documentation. These sections form the baseline for good documentation, and should be detailed based on the kind of industry and consumer your API is expected to have. These sections include: Authentication. This is the information about using authentication schemes to start consuming your API.
