Good Tidings Little, Brown
A cosmetologist - L.J. Carter (Louella Jo for the folks who knew her when she was growing up) returns to her hometown of Julep, Mississippi for her mother's funeral. After flying out of JFK and arriving at the Biloxi Airport, she is greeted by a woman who not only knew her mother but has some disturbing information to share with L.J. about her mother's death. A card file - Like any good stylist, Jeannette Carter kept all of the important information about her customers on index cards, filed in an old, metal card file. But Jeannette didn't just keep the latest hairstyles and coloring information, she also kept bits of gossip and information her customers told her. It was innocent

enough - she just wanted to be sure she remembered what they told her when they were together. But after a customer is murdered, the innocent card file could be the motive for another death. Bless Your Heart - welcome to Julep, Mississippi, right on the Gulf Coast. Where neighbors have known each other for generations. Where the local hair salon has more information about what's going on in town than either the local paper or the local sheriff's department. The owner of the bakery knows you by name. The minister of the biggest church in town has more clout than the mayor. And people say "Bless Your Heart" for all kinds of reasons, the least of which is when they're ready to insult you.

Over one hundred years ago, a group of witches, escaping a second wave of Witch Trials made their way from New England to Whitewater, Wisconsin, known as Second Salem. Others, seeking knowledge in spiritualism and the occult, also made their way to the city and, through their ignorance, unleashed an evil entity poised to destroy the city. Three sisters, the Willoughby Witches, created an incantation strong enough to ensnare the demon. But, magic requires payment, and so the sisters sacrificed themselves to keep their city and their family safe. Now, 120 years later, the incantation is at its end, and the demon grows stronger every day. Three sisters, three witches, know that now is the time for them to step up and face the creature their ancestors faced and sacrifice whatever they need in order to keep Whitewater safe. Catalpa Willoughby always

thought that Donovan Farrington was her one true love, but Donovan's decision to join the league of the demon known as the Master has Cat both frightened and confused. In order to fight the demon, she and her sisters were charged with finding a soulmate who can help them on this journey. Will that soulmate be Donovan, or could it be the mysterious stranger in town, Finias Bailey, who seems to know more about the Willoughbys than he should. Loose Ends Penguin "Twenty-four years ago, a young woman drowned in the swimming pool of a newly elected state senator. It was ruled an accident. But now, as the Senator prepares to move on to higher positions, the ghost of the woman is appearing to the Senator's wife. Jeannine appeared in the room across from Mary. Her face was streaked with tears and she was visibly trembling. "Mary, I remembered," she cried. "I remembered and it was awful." The time has finally come for Mary to investigate Jeannine's murder. As all clues point to someone in Bradley's old neighborhood, Mary and Ian move in to the former Alden residence and pose as newlyweds to set Mary up as bait for the killer. With Stanley and Rosie at their side, they expose the darkness hidden in the depths of Bradley's old neighborhood.

Clear Expectations - a Mary O'Reilly Paranormal Mystery
Oxford University Press
Good Strategy/Bad Strategy
clarifies the muddled thinking

underlying too many strategies and provides a clear way to create and implement a powerful action-oriented strategy for the real world. Developing and implementing a strategy is the central task of a leader. A good strategy is a specific and coherent response to—and approach for—overcoming the obstacles to progress. A good strategy works by harnessing and applying power where it will have the greatest effect. Yet, Rumelt shows that there has been a growing and unfortunate tendency to equate Mom-and-apple-pie values, fluffy packages of buzzwords, motivational slogans, and financial goals with “strategy.” In *Good Strategy/Bad Strategy*, he debunks these elements of “bad strategy” and awakens an understanding of the power of a “good strategy.” He introduces nine sources of power—ranging from using leverage to effectively focusing on growth—that are eye-opening yet pragmatic tools that can easily be put to work on Monday morning, and uses fascinating examples from business, nonprofit, and military affairs to bring its original and

pragmatic ideas to life. The detailed examples range from Apple to General Motors, from the two Iraq wars to Afghanistan, from a small local market to Wal-Mart, from Nvidia to Silicon Graphics, from the Getty Trust to the Los Angeles Unified School District, from Cisco Systems to Paccar, and from Global Crossing to the 2007 – 08 financial crisis. Reflecting an astonishing grasp and integration of economics, finance, technology, history, and the brilliance and foibles of the human character, Good Strategy/Bad Strategy stems from Rumelt ' s decades of digging beyond the superficial to address hard questions with honesty and integrity.

Gloria Foley turned off the light in the hallway and made her way slowly upstairs to bed. She paused at the doorway of her daughter's bedroom and shook her head. It had been such an emotional day for all of them.

She prayed she would have the strength to get them both through these treacherous teenaged years. Slowly turning the knob on the bedroom door, she quietly opened it to check on her sleeping child. Through the narrow opening, she could see the bed was still made and no one was sleeping on it. She opened the door wider and saw the shadow on the far wall and her heart clenched. Screaming, she flung the door open and ran to the figure hanging from the thick electric cord suspended from the ceiling fan. "No," she screamed, as she tried to lift the inert body up to relieve the pressure against her neck. "Nooooooooo!" The ghost of a teenager who committed suicide twenty years ago is haunting her family's home. Can Mary link that death to the serial suicides of the girls who bullied her when she was

alive? And with Gary Copper still on the loose, Mary and Bradley are faced with the challenge of keeping the newest member of their family safe and sound.

In the five years since the first edition of this classic book was published, Internet use has exploded. The commercial world has rushed headlong into doing business on the Web, often without integrating sound security technologies and policies into their products and methods. The security risks--and the need to protect both business and personal data--have never been greater. We've updated Building Internet Firewalls to address these newer risks. What kinds of security threats does the Internet pose? Some, like

password attacks and the exploiting of known security holes, have been around since the early days of networking. And others, like the distributed denial of service attacks that crippled Yahoo, E-Bay, and other major e-commerce sites in early 2000, are in current headlines. Firewalls, critical components of today's computer networks, effectively protect a system from most Internet security threats. They keep damage on one part of the network--such as eavesdropping, a worm program, or file damage--from spreading to the rest of the network. Without firewalls, network security problems can rage out of control, dragging more and more systems down. Like the bestselling and highly respected first edition, Building Internet Firewalls,

2nd Edition, is a practical and detailed step-by-step guide to designing and installing firewalls and configuring Internet services to work with a firewall. Much expanded to include Linux and Windows coverage, the second edition describes: Firewall technologies: packet filtering, proxying, network address translation, virtual private networks Architectures such as screening routers, dual-homed hosts, screened hosts, screened subnets, perimeter networks, internal firewalls Issues involved in a variety of new Internet services and protocols through a firewall Email and News Web services and scripting languages (e.g., HTTP, Java, JavaScript, ActiveX, RealAudio, RealVideo) File transfer and sharing services such as NFS, Samba Remote access services such as Telnet, the BSD "r"

commands, SSH, BackOrifice 2000 Real-time conferencing services such as ICQ and talk Naming and directory services (e.g., DNS, NetBT, the Windows Browser) Authentication and auditing services (e.g., PAM, Kerberos, RADIUS); Administrative services (e.g., syslog, SNMP, SMS, RIP and other routing protocols, and ping and other network diagnostics) Intermediary protocols (e.g., RPC, SMB, CORBA, IIOP) Database protocols (e.g., ODBC, JDBC, and protocols for Oracle, Sybase, and Microsoft SQL Server) The book's complete list of resources includes the location of many publicly available firewall construction tools. Treasured Legacies Simon and Schuster "A startling expos é of the invisible human workforce

that powers the web--and how they or even acknowledge to bring it out of the shadows. Hidden beneath the surface of the internet, a new, stark reality is looming--one that cuts to the very heart of our endless debates about the impact of AI. Anthropologist Mary L. Gray and computer scientist Siddharth Suri unveil how the services we use from companies like Amazon, Google, Microsoft, and Uber can only function smoothly thanks to the judgment and experience of a vast human labor force that is kept deliberately concealed. The people who do 'ghost work' make the internet seem smart. They perform high-tech, on-demand piecework: flagging X-rated content, proofreading, transcribing audio, confirming identities, captioning video, and much more. The shameful truth is that no labor laws protect

their existence. They often earn less than legal minimums for traditional work, they have no health benefits, and they can be fired at any time for any reason, or for no reason at all. An estimated 8 percent of Americans have worked in this 'ghost economy,' and that number is growing every day. In this unprecedented investigation, Gray and Suri make the case that robots will never completely eliminate 'ghost work' and the unchecked quest for artificial intelligence could spark catastrophic work conditions if not stopped in its tracks. Ultimately, they show how this essential type of work can create opportunity--rather than misery--for those who do it."--Dust jacket.

Was it raining outside? Dale

Johnson wondered as he woke up. It was dark and he could hear the sound of rain hitting the roof. Suddenly, he was pelted with something small and hard. He opened his eyes and sat up, nearly fainting in the process. His head was pounding. What the hell happened? He was pelted again and realized he was being hit with small pieces of corn. His stomach twisted and his heart pounded. He wasn't in his house; he was in the grain silo! Struggling to his feet, he lurched to the wall and found the hatch. He found the latch and pushed, but it was stuck fast. Pounding on it, bloodying his hands, he tried again and again to unlatch the door. The grain was now being emptied into the silo in a rapid rate. Dust from the corn was filling the interior and Dale coughed as he continued to fight with the door. " Help me, " he yelled, " I'm caught in here! " The roar of the auger and the dump truck drowned out his voice, but he kept calling out and pounding on the metal door. " I'm in here, " he screamed, as the grain filled the bottom of the silo, first covering his feet, then his knees, his

hips and finally, it was waist high. He thought about his family, especially his wife, who would be waiting supper for him. He thought about his grandkids, who he'd never see grow up. He thought about his kids and prayed they wouldn't blame themselves for the accident. Finally, as the grain moved up past his chin, he took a final deep breath and thought about dying. A farm accident or murder? Could the murderer be one of his own children? And how will the ghost's legacy change Mary's future?

TEENTH-CENTURY
LONDON—WHERE

WITCHES HAUNT
WILLIAM SHAKESPEARE
AND HIS DARK LADY,
THE PLAYWRIGHT'S
MUSE AND ONE TRUE
LOVE The daughter of a Venetian musician, Aemilia Bassano came of age in Queen Elizabeth's royal court. The Queen's favorite, she develops a love of poetry and learning, maturing into a young woman known not only for her beauty but also her sharp mind and quick tongue. Aemilia becomes the mistress of Lord Hunsdon, but her position is precarious. Then she crosses paths with an impetuous playwright named William Shakespeare and begins an impassioned but ill-fated affair. A decade later, the Queen is dead, and Aemilia Bassano is now Aemilia Lanyer, fallen from favor and married to a fool. Like the rest of London, she fears the

plague. And when her young son Henry takes ill, Aemilia resolves to do anything to save him, even if it means seeking help from her estranged lover, Will—or worse, making a pact with the Devil himself. In rich, vivid detail, Sally O'Reilly breathes life into England's first female poet, a mysterious woman nearly forgotten by history. Full of passion and devilish schemes, *Dark Aemilia* is a tale worthy of the Bard.

"But Sol, it ain't haunted like you thought," Marty argued cautiously. It wasn't a good idea to get Sol too angry. "We've tried everything, sances, Ouija boards, mediums-everything. This place is just an old, empty house. A creepy, old house." Sol shook his head, disregarding Marty's words, and started up the tall staircase to the second floor. "It just has to seem like a haunted house," he said. "We'll keep the crowds coming if it seems like a haunted house. People pay good money to spend the night in a haunted mansion." Marty followed him, shaking his head. "After that last paranormal research group came through and found nothing, we

ain't been getting the crowds like we anything to help you," he said sadly. used to," he pointed out. "People look on the internet for everything. All they have to do is research the house and they'll see we've been investigated by three different groups. They ain't gonna pay top dollar to stay in the state's most haunted house if it ain't got no ghosts." Sol stopped at the top of the stairs and waited for Marty. "Then all we need is a ghost," he said. Marty shook his head and put his hand on his partner's shoulder. "Sol, we've been at this for three years," he replied. "The balloon payment is coming up in three months. We ain't got the capital. We gotta let go of this place before we lose everything." Shoving Marty's arm off his shoulder, Sol paced angrily down the hallway. "Don't you get it, Marty?" he growled, his teeth clenched. "I'm going to lose everything if this place doesn't pan out. I sunk everything I owned into this place. I don't have any reserves. I don't have anything to turn to. This place has to work out." Marty leaned one hand on the balustrade at the top of the staircase and sadly shook his head. "I'm sorry, Sol. I'd do

"But this place just ain't got a ghost." Sol sighed deeply and turned back to his friend, nodding his head slowly. "Thank you, Marty," he replied. A icy tremor of fear swept through Marty's body as he saw the cold, calculating look in Sol's eyes. He lifted his hands defensively. "No, Sol, no," he cried even as he felt the power of Sol's body knock him backwards and down the stairs. A few moments later, Sol stood at the top of the staircase, looking down at the broken, lifeless body of his business partner sprawled unnaturally on the black and white, ceramic tiled, lobby floor. He leaned against the same balustrade that only moments before had been held by Marty and nodded. "And now we have a ghost." Mary, Ian and Mike investigate a supposedly haunted house and discover there are more than just ghosts hidden behind its doors.

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English

settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Dying is what changed Mary O'Reilly's life. Well, actually, coming back from the dead and having the ability to communicate with ghosts is really what did it. Now, a private investigator in rural Freeport, Illinois, Mary's trying to learn how to incorporate her experience as a Chicago cop and new-found talent into a real job. Her challenge is to solve the mysteries, get real evidence (a ghost's word just doesn't hold up in court), and be sure the folks in town, especially the handsome new police chief, doesn't think she's nuts. Twenty-four years ago, a young woman drowned in the swimming pool of a newly elected State Senator. It was ruled an accident. But now, as the Senator prepares to move on to higher positions, the ghost of the woman is appearing to the Senator's

wife. Mary is hired to discover the truth behind the death. She unearths a connection between the murder and the disappearance of five little girls whose cases, twenty-four years later, are still all unsolved. As she digs further she becomes the next target for serial killers' quest to tie up all his loose ends.

Mandy, a novice nurse at Freeport hospital, took the elevator down to get supplies for her area. It only took a moment to go from four down to three. The elevator doors opened to a dimly lit floor. She walked out and glanced to her right. The empty nurses station was just down the hall before the double doors that she assumed led to the now empty rooms. There were a few boxes on the counter that surrounded the station, but other than those, the station was empty. She turned to the left and saw the closed door with the word "Supplies" stenciled on it.

Hurrying over to the doors, she pulled out the key and inserted it into the lock. A light switch was conveniently located right inside the door and Mandy switched it on. Bright light flooded the interior of the supply room. Metal shelves lined up in narrow aisles throughout the room. She easily located the sheets and also found a plastic tub she could use to carry them upstairs. She piled the sheets into the tub, carried them out of the room, then turned off the light and then locked the door. Hefting the tub back into her arms, she turned around and was surprised to see a little girl standing next to the empty nurses station. Mandy guessed the little girl was about eight years old. She had a hospital gown on and her hair was styled in two braids that hung on either side of her head. She must have wandered away from the Pediatric Ward on the second floor. "Hey sweetheart," she said. "I'm Mandy. Are you lost?" The girl stared at the nurse for a long moment, but didn't answer. "Come on, I can bring you back to your room," Mandy coaxed, not wanting to frighten the child. The child didn't

respond. Mandy put the tub down, looked back up and the child was gone. Shaking her head in surprise, Mandy slowly stepped forward, her heart thumping in her chest. The little girl must have dashed behind the counter, that had to be where she was. "Little girl," she called. "Where are you?" She peeked behind the nurses station expecting to find the child hiding, but no one was there. All of the cabinets and desks that used to be behind the counter were gone, so just the shell of the counter stood around her. There was nowhere to hide. Nowhere to go. A chill ran up Mandy's spine. She backed away from the station, her mouth dry and her heart pounding. She grabbed the tub of sheets and dashed to the elevator, beating on the button in desperation. Not daring to look over her shoulder at the wing behind her. Finally, the elevator doors opened, and she nearly tripped getting in, she was so eager to leave the floor. She pressed the fourth-floor button and gasped with relief when the doors opened into the bright floor. Mary and Bradley help solve the mystery that is keeping the ghosts of thirteen

children stranded in an unused section of the hospital. And, with Mikey arrival imminent, they prepare for other changes in the Alden household.
