Pricing is different for apps in the standard environment and the flexible environment. Apps in both environments may also incur charges from other Google Cloud products, depending on which products they use in addition to App Engine. Standard environment pricing. Apps in the standard environment have a free quota for App Engine resources.

### **Google Cloud Platform**

Search the world's information, including webpages, images,

videos and more. Google has many special features to help you find exactly what you're looking for.

### **Google App Engine - Download**

Comparing the flexible environment to Compute Engine. The App Engine flexible environment has the following differences to Compute Engine: Flexible environment VM instances are restarted on a weekly basis. During restarts, Google's management services apply any necessary operating system and security updates.

### **Google App Engine -**

### **Wikipedia**

App Engine is a fully managed, serverless platform for developing and hosting web applications at scale. You can choose from several popular languages, libraries, and frameworks to develop your apps, then let App Engine take care of provisioning servers and scaling your app instances based on demand.
