NATIONAL BESTSELLER • The astonishing and hugely entertaining story that completely changed the way we run. An epic adventure that began with one simple question: Why does my foot hurt? " Equal parts quest, physiology treatise, and running history.... The climactic race reads like a sprint.... It simply makes you want to run. " —Outside Magazine Isolated by Mexico's deadly Copper Canyons, the blissful Tarahumara Indians have honed the ability to run hundreds of miles without rest or injury. In a riveting narrative, award-winning journalist and often-injured runner Christopher McDougall sets out to discover their secrets. In the process, he takes his readers from science labs at Harvard to the sun-baked valleys and freezing peaks across North America, where ever-growing numbers of ultra-runners are pushing their bodies to the limit, and, finally, to a climactic race in the Copper Canyons that pits America ' s best ultra-runners against the tribe. McDougall ' s incredible story will not only engage your mind but inspire your body when you realize that you, indeed all of us, were born to run. Look for Born to Run 2, coming in December!

This book is a thorough revision of the highly successful text first published in 1994. The authors retain the multidisciplinary approach that presents research from linguistics, sociology, psychology, and education, in a format designed for use in an introductory course for undergraduate or graduate students. The research is updated throughout and there are new sections and chapters in this second edition as well. New chapters

cover child language acquisition (first and second), Universal Grammar, and instructed language learning; new sections address issues, such as what data analysis doesn't show, replication of research findings, interlanguage transfer (multilingual acquisition and transfer), the aspect hypothesis, general nativism, connectionist approaches, and implicit/explicit knowledge. Major updates include nonlanguage influences and the lexicon. The workbook, Second Language Learning Data Analysis, Second Edition, makes an ideal accompaniment to the text.

Could you be Captain of a whaling ship if all the crew around you died in a tragedy? Would you even want to? And what would you do if the cook on board has plans of his own and wants to kill you? This and much more is what poor fifteen year old Dick Sands has to deal with as the only surviving crew member. Everything seems to be going according to plan. That is until the cook sabotages the ship and rather than arriving in South America, the group ends up in Africa. The evil cook ' s plan is to sell everyone on board into slavery. Will they survive all the obstacles and unexpected occurrences or will they fall victims to the African slave trade? 'Dick Sands, the Boy Captain' is an adventure novel which not only keeps you on the edge until the very end, but it also depicts the widespread condemnation of slavery. Jules Verne (1828-1905) was a French novelist who mostly wrote adventure fiction inspired by the scientific advances of the 19th century. With the help of editor Pierre-Jules Hetzel he wrote a series of books called 'Extraordinary Travels', which includes 'Journey to the Center of the Earth' (1864), 'Twenty Thousand Leagues Under the Sea' (1870) and 'Around the World in Eighty Days' (1873). There have been many film adaptations of Jules Verne ' s books with the most notable being 'Journey to the Center of The Earth' (2008) starring Brendan Fraser and Josh Hutcherson (The Hunger Games), 'Around the World in 80 Days' (1956) and 'Journey 2: The Mysterious Island' (2012) starring Dwayne Johnson. Widely popular with both children and adults, Verne is one of the most translated authors of all time, and still inspires people the world over.
