Could you be Captain of a whaling ship if all the crew around you died in a tragedy? Would you even want to? And what would you do if the cook on board has plans of his own and wants to kill you? This and

much more is what poor fifteen year old Dick Sands has to deal with as the only surviving crew member. Everything seems to be going according to plan. That is until the cook sabotages the ship and rather than arriving in South America, the group ends up in Africa. The evil cook's plan is to sell everyone on board into slavery. Will they survive all the obstacles and unexpected occurrences or will they fall victims to the African slave trade? 'Dick Sands, the Boy Captain' is an adventure novel which not only keeps you on the edge until the very end, but it also depicts the widespread

condemnation of slavery. Jules Verne (1828-1905) was a French novelist who mostly wrote adventure fiction inspired by the scientific advances of the 19th century. With the help of editor Pierre-Jules Hetzel he wrote a series of books called 'Extraordinary Travels', which includes 'Journey to the Center of the Earth' (1864), 'Twenty Thousand Leagues Under the Sea' (1870) and 'Around the World in Eighty Days' (1873). There have been many film adaptations of Jules Verne's books with the most notable being 'Journey to the Center of The Earth' (2008) starring

Brendan Fraser and Josh Hutcherson (The Hunger Games), 'Around the World in 80 Days' (1956) and 'Journey 2: The Mysterious Island' (2012) starring Dwayne Johnson. Widely popular with both children and adults, Verne is one of the most translated authors of all time, and still inspires people the world over.

we run. An epic adventure that began with one simple question: Why does my foot hurt? “ Equal parts quest, physiology treatise, and running history.... The climactic race reads like a sprint.... It simply makes you want to run. ” —Outside Magazine Isolated by Mexico's deadly Copper Canyons, the blissful Tarahumara Indians have honed the ability to run hundreds of miles without rest or injury. In a riveting narrative, award-winning journalist and often-injured runner Christopher McDougall sets out to discover their secrets.

In the process, he takes his readers from science labs at Harvard to the sun-baked valleys and freezing peaks across North America, where ever-growing numbers of ultra-runners are pushing their bodies to the limit, and, finally, to a climactic race in the Copper Canyons that pits America ' s best ultra-runners against the tribe. McDougall ' s incredible story will not only engage your mind but inspire your body when you realize that you, indeed all of us, were born to run. This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts

and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative

examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

CHAPTER 1. Loomings. Call me Ishmael. Some years ago—never mind how long precisely—having little or no money in my purse, and nothing particular to interest me on shore, I thought I would sail about a little and see the watery part of the world. It is a way I have of driving off the spleen and regulating the circulation. Whenever I find myself growing grim about the

mouth; whenever it is a damp, drizzly November in my soul; whenever I find myself involuntarily pausing before coffin warehouses, and bringing up the rear of every funeral I meet; and especially whenever my hypos get such an upper hand of me, that it requires a strong moral principle to prevent me from deliberately stepping into the street, and methodically knocking people ' s hats off—then, I account it high time to get to sea as soon as I can. This is my substitute for pistol and ball. With a philosophical flourish Cato throws himself upon his

sword; I quietly take to the ship. There is nothing surprising in this. If they but knew it, almost all men in their degree, some time or other, cherish very nearly the same feelings towards the ocean with me. Ask It Back Bay Books Thanks to the decreasing cost of prototyping, it's more feasible for professional makers and first-time entrepreneurs to launch a hardware startup.
