This book is perfect for beginners, but also provides in depth knowledge that will be useful for intermediate camera users.

Marine Modeling Elsevier

Curious about the world of obstetrics and gynecology? Want to know why a future doctor would want to specialize in gynecology? Or perhaps you'd just like a peek behind the curtain, so to speak -- and to hear some OBGYN secrets. If you're intrigued by any of these topics, or just want to know about women's health from an OBGYN who tells it like it is, this book is for you. "Confessions of a Male Gynecologist" reveals not only what your gynecologist is thinking when your feet are in the stirrups, but provides women with some frank advice. Dr. Bellanger provides readers with an education, gets on his high horse, and shares some unbelievable (and in many cases), "laugh-out-loud" stories. Here's what readers have to say ... "... full of insights you had no idea you wanted to know." "... informational, educational, and at times downright hysterical" "... answers all the questions you've ever had about your gynecologist" "... an entertaining experience." "... an insightful look into the complexity and realities of not only women's health, but the state of our health care system today."

Merchants of Death Kalmbach Media

"This is a book about what the science of perception can tell us about visualization. There is a gold mine of information about how we see to be found in more than a century of work by vision researchers. The purpose of this book is to extract from that large body of research literature those design principles that apply to displaying information effectively"--

The Light Airplane Pilot's Guide to Stall/spin Awareness Ilex Press

Women Underwater - The Comprehensive Guide to Women in Scuba Diving, aims to reach out to women with specific information about their place in diving. With detailed guidance on equipment, medical issues and social factors, this book reaches women with inspiring stories from mentors who have forged a career in unique underwater fields. Authors Jill Heinerth and Renee Power tackle topics for both recreational and technical divers while featuring their vast experience in instruction, consulting and working in field predominantly governed by men. At times humorous yet also deadly serious, the book answers delicate questions about hygiene, equipment fit and dealing with sexism. Printed in full color and generously illustrated, Women Underwater will be published

alongside a website and blog that keeps readers up to date on opportunities, new equipment and activities for women divers.

Methods on the Move IIED

Three years after the conclusion of his trilogy, *On This Earth, A Shadow Falls Across the Ravaged Land*, Nick Brandt returns to East Africa to photograph the escalating changes to the continent's natural world. In a series of epic panoramas, Brandt records the impact of man in places where animals used to roam, but no longer do. In each location, Brandt erects a life size panel of one of his animal portrait photographs, setting the panels within a world of explosive urban development, factories, wasteland and quarries. The people within the photographs are oblivious to the presence of the panels and the animals featured in them, who are now no more than ghosts in the landscape. Some of the animals in the panels appear to be looking out at these destroyed landscapes with sadness, as if lamenting the loss of the world they once inhabited. By the end, we see that it is not just the animals who are the victims in this out of control world, but also the humans. *Inherit the Dust* also includes plates of the original portraits of the animals that are featured in the life-size panels, the unique emotional animal portraiture for which Brandt is recognized. There are also two essays by the artist: a text about the crisis facing the conservation of the natural world in East Africa, and behind-the-scenes descriptions of Brandt's elaborate production process, with accompanying documentary photographs.

World Travel in Low Budget: How to Plan International Trips on Our Own in Low Cost? Rich Stowell, Master CFI-A

With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. *In Camera* is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.
