An astonishing story that puts a human face on the ongoing debate about immigration reform in the United States, now updated with a new Epilogue and Afterword, photos of Enrique and his family, an author interview, and more—the definitive edition of a classic of contemporary America Based on the Los Angeles Times newspaper series that won two Pulitzer Prizes, one for feature writing and another for feature photography, this page-turner about the power of family is a popular text in classrooms and a touchstone for communities across the country to engage in meaningful discussions about this essential American subject. Enrique’s Journey recounts the unforgettable quest of a Honduran boy looking for his mother, eleven years after she is forced to leave her starving family to find work in the United States. Braving unimaginable peril, often clinging to the sides and tops of freight trains, Enrique travels through hostile worlds full of thugs, bandits, and corrupt cops. But he pushes forward, relying on his wit, courage, hope, and the kindness of strangers. As Isabel Allende writes: “This is a twenty-first-century Odyssey. If you are going to read only one nonfiction book this year, it has to be this one.” Praise for Enrique’s Journey “Magnificent . . . Enrique’s Journey is about love. It’s about family. It’s about home.”—The Washington Post Book World “[A] searing report from the immigration frontlines . . . as harrowing as it is heartbreaking.”—People (four stars) “Stunning . . . As an adventure narrative alone, Enrique’s Journey is a worthy read. . . Nazario’s impressive piece of reporting [turns] the current immigration controversy from a political story into a personal one.”—Entertainment Weekly “Gripping and harrowing . . . a story begging to be told.”—The Christian Science Monitor “[A] prodigious feat of reporting . . . [Sonia Nazario is] amazingly thorough and intrepid.”—Newsday

The deeply entrenched patterns of racial inequality in the United States simply do not square with the liberal notion of a nation-state of equal citizens.

Uncovering the false promise of liberalism, *State of White Supremacy* reveals race to be a fundamental, if flexible, ruling logic that perpetually generates and legitimates racial hierarchy and privilege. Racial domination and violence in the United States are indelibly marked by its origin and ongoing development as an empire-state. The widespread misrecognition of the United States as a liberal nation-state hinges on the twin conditions of its approximation for the white majority and its impossibility for their racial others. The essays in this book incisively probe and critique the U.S. racial state through a broad range of topics, including citizenship, education, empire, gender, genocide, geography, incarceration, Islamophobia, migration and border enforcement, violence, and welfare.

The Policy Process Independently Published

First published in England in 1782, Crèvecoeur's *Letters from an American Farmer* was one of the first works to describe the character of the average American at the close of the Revolutionary War. His famous question, "'What, then, is the American, this new man?'" summarized the European's interest in and questioning of the new country of America at a time when centuries of tradition had just been overturned and post-colonial Americans were attempting to describe themselves in a new way. Through the character of James, the letters celebrate the land of America, its space and fertility, and the character of Americans themselves, their work ethic and spirit of personal determination. The Letters also look at the darker side of American life, particularly the issue of slavery. The discussions of American identity, participation in war (or not), and the perception of immigrants and their ethnicity make this book as relevant to our understanding of ourselves today as it was in

1782.

The Address was delivered at the dedication of the Soldiers' National Cemetery in Gettysburg, Pennsylvania, on the afternoon of Thursday, November 19, 1863, during the American Civil War, four and a half months after the Union armies defeated those of the Confederacy at the decisive Battle of Gettysburg. In just over two minutes, Lincoln invoked the principles of human equality espoused by the Declaration of Independence and redefined the Civil War as a struggle not merely for the Union, but as "a new birth of freedom" that would bring true equality to all of its citizens, and that would also create a unified nation in which states' rights were no longer dominant. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

A Portrait of the Artist as a Young Man Simon and Schuster

Taken from "The Talented Tenth" written by W. E. B. Du Bois: The Negro race, like all races, is going to be saved by its exceptional men. The problem of education, then, among Negroes must first of all deal with the Talented Tenth; it is the problem of developing the Best of this race that they may guide the Mass away from the contamination and death of the Worst, in their own and other races. Now the training of men is a difficult and intricate task. Its technique is a matter for educational experts, but its object is for the vision of seers. If we make money the object of man-training, we shall develop money-makers but not necessarily men; if we make technical skill the object of education, we may possess artisans but not, in nature, men. Men we shall have only as we make manhood the object of the work of the schools-intelligence, broad sympathy, knowledge of the world that was and is, and of the relation of men to it-this is the curriculum of that Higher Education which must underlie true life. On this foundation we may build bread winning, skill of hand and quickness of brain, with never a fear lest the child and man mistake the means of

living for the object of life.

Alexander Hamilton (c. 1755 – 1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances.
