[2000 Motor Vehicle Occupant Safety Survey: Volume 5, Child Safety Seat Report](#) Consumer Reports Books

As the number of passenger cars in the world increases daily, so too does Earth's supply of

parking spaces. In some cities, parking lots cover more than one-third of the metropolitan footprint—but their design and function has not been rethought since the 1950s. Here, urban designer Eran Ben-Joseph shares a different vision for parking's future--aesthetically pleasing, environmentally and architecturally responsible. He provides a visual history of this often-ignored urban space, introducing us to some of the many alternative and nonparking purposes that parking lots have served. He shows us parking lots that are lushly planted with trees and flowers and beautifully integrated with the rest of the built environment. With purposeful design, Ben-Joseph argues, parking lots could be significant public places, contributing as much to their communities as great boulevards, parks, or plazas.--From publisher description.

Increasing seat belt use is one of the most effective and least costly ways of reducing the lives lost and injuries incurred on the nation's highways each year, yet about one in four drivers and front-seat passengers continues to ride unbuckled. The Transportation Research Board, in response to a congressional request for a study to examine the potential of in-vehicle technologies to increase belt use, formed a panel of 12 experts having expertise in the areas of automotive engineering, design, and regulation; traffic safety and injury prevention; human factors; survey research methods; economics; and technology education and consumer interest. This panel, named the Committee for the Safety Belt Technology Study, examined the potential benefits of technologies designed to increase belt use, determined how drivers view the acceptability of the technologies, and considered whether legislative or regulatory actions are necessary to enable their installation on passenger vehicles. The National Highway Traffic Safety Administration (NHTSA), the study sponsor, funded and conducted interviews and focus groups of samples of different belt user groups to learn more about the potential effectiveness and acceptability of technologies ranging from seat belt reminder systems to more aggressive interlock systems, and provided the information collected to the study committee. The committee also supplemented its expertise by holding its second meeting in Dearborn, Michigan, where it met in proprietary sessions with several of the major automobile manufacturers, a key supplier, and a small business inventor of a shifter interlock system to learn of planned new seat belt use technologies as well as about company data concerning their effectiveness and acceptability. The committee's findings and recommendations are presented in this five-chapter report.

This Pulitzer Prize-winning author's true account of the thief behind the famed 1972 heist is "an engrossing crime biography . . . [and] a fast-paced romp" (Kirkus Reviews). Growing up in Rochester, New York, Bobby Comfort wanted to be a good something. It just so happened that he was great at being a criminal. In January 1972, men in tuxedos robbed the Pierre, the luxurious Manhattan hotel, and got away with eleven million dollars' worth of cash and jewelry. The police were baffled by how such a large-scale operation could go off so smoothly. The answer lay in the leader of the thieves, a man by the name of Bobby Comfort. He had taken to crime from a young

age with card sharpening and petty theft. Eventually, taking money from the rich was where he excelled. Sort of like Robin Hood—except for the part where he kept the loot himself—Comfort masterminded what was, at the time, the most lucrative heist in history, while appearing to his neighbors like an ordinary suburban family man. In this blend of insightful biography and true crime, Pulitzer Prize-winning journalist Ira Berkow chronicles the story, using first-hand accounts to weave together a fascinating portrait of a criminal and "a corking good cops-and-robbers tale" (Library Journal).
