Mother. Nun. Bishop. Healer. Teacher. Brother. Businesswoman. Mystic. Convert.

These are titles worn by six holy Canadian men and women, now also known by the title of

saint. From Canada's first teachers in the 1600s, to a simple religious brother whose prayer effected amazing miracles in the 1900s, these saints remain an example of faith and love today. St. Kateri Tekakwitha, St. Andre Bessette, St. Marie of the Incarnation, St. Marguerite Bourgeoys, St. Francois de Laval, and St. Marguerite d'Youville lived ordinary lives of great service and love to those around them. Filled with stories, word puzzles, colouring pages and more, kids will have fun exploring the lives of these holy men and women. While learning about these six saints, children will also learn about other aspects of the Catholic faith such as spiritual communion, sacramentals, mystics, the corporal works of mercy, and more. Canadian Saints Kids Activity Book is suitable for homeschools, Catholic schools, parish catechism classes or kids clubs,

and more.

Two Weeks in Costa Rica Penguin

From the author of the bestselling *The Modern Girl's Guide to Life* comes a must-have book for the young mom, including best-kept secrets, practical advice, and multiple solutions for problems from birth to age four Just when you thought you could cook (hey, one meal counts), clean (if

the queen was coming), and seduce a man (well, long enough to get married), life throws you a curveball that makes all of your previous ineptitudes in life pale in comparison. With the appearance of one little extra line on a pregnancy test, you're thrown into a world of covering up leaks on shirts and taking a pacifier away from a two-year-old who has the grip of a pit bull. In this funny, smart, and honest book, Jane Buckingham cuts through the clutter to give you simple information and practical advice for navigating the different stages of motherhood. From how to get your child to sleep and how to wean, to how to get him off the pacifier and how to stop his tantrums, this book will help moms feel in the know and in control! Some of Buckingham's

favorite tips: If your baby has a hard time feeding because of a stuffy nose, turn on the shower to steam up the bathroom and feed her there. Put your children's paints in an empty egg carton -- it's the perfect size, and there's no mess to clean up when you're done. Use an old raincoat with the arms cut off as a smock. You should buy a new car seat, rather than borrowing a friend's old car seat, as there are constant safety upgrades. Also, be sure you are the person registered to that car seat (send in that registration card!) so that you'll be notified in case of a recall. Keep the three-day rule in mind: Almost any bad habit can be broken in three days. Granted, they may be tough, torturous days, but you can do it! The Modern Girl's Guide to Motherhood helps modern moms

do it all with love, style, and flair!

Keep Them Safe Psychology Press

What does a child’s ability to look where another is looking tell us about his or her early cognitive development? What does this ability—or lack thereof—tell us about a child’s language development, understanding of other’s intentions, and the emergence of autism? This volume assembles several years of research on the processing of gaze information and its relationship to early social-cognitive development in infants spanning many age groups. Gaze-Following examines how

humans and non-human primates use another individual's direction of gaze to learn about the world around them. The chapters throughout this volume address development in areas including joint attention, early non-verbal social interactions, language development, and theory of mind understanding. Offering novel insights regarding the significance of gaze-following, the editors present research from a neurological and a behavioral perspective, and compare children with and without pervasive developmental disorders. Scholars in the areas of cognitive development specifically, and developmental science more broadly, as well as clinical psychologists will be interested in the intriguing research presented in this volume.
