In Tom Kundig: Works, the celebrated Seattle-based architect presents nineteen new projects, from Hawaii to New York City. Kundig's award-winning houses, known for their rugged yet elegant and welcoming style, are showcased in lush photography with drawings and sketches, and appear alongside his commercial work—from multistory complexes to the Tacoma Art Museum to a line of hardware (handles,

---

door pulls, hinges, and more). In firsthand accounts, Kundig describes the projects and his design process with many personal anecdotes, making Tom Kundig: Works as much memoir as monograph. The book also includes an introduction by design editor Pilar Viladas and in-depth conversations with Kundig's frequent collaborators—"gizmologist" Phil Turner and contractor Jim Dow (Schuchart/Dow)—and clients (Bigwood Residence and Studhorse). From an Ivy League dean and a college admissions expert, a guide to help parents support their children as they navigate their way to college The College Conversation is a comprehensive resource for mapping the path through the college application process that provides practical advice and reassurance to keep both anxious parents and confused children sane and grounded. Rather than adding to the existing canon of "How to Get In" college guides or rankings, Eric Furda and Jacques Steinberg provide a step-by-step approach

to having the tough conversations on this topic with less stress and more success. The book is organized around key discussions and themes that trace the chronological arc of admissions and financial aid--beginning before the assembly of a list of potential colleges and continuing through the receipt of decisions--with a final section that includes advice on the first year of college. The topics include preliminary conversations about the search, and specifically how parents can think about their children's interests and what kind of college would best suit them; choosing a college (based on its curriculum, culture, and community); writing the most effective essays; assessing acceptances, including considerations of finances and aid; and making the transition from high school to college life. The College Conversation will provide parents, students, and counselors with the credible, level-headed information often

missing in this process, as well as a much-needed dash of perspective borne of experience.

Sometimes you know things you ' re not supposed to know. Things that you can never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the " Triangle Terror " ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon ' s

---

preteen sister, Alexis, is murdered in their home, plunging Landon's life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister's murder? And so begins Landon's journey to piece together the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. When Beth Dolinsky's military husband returns from deployment with post-traumatic stress and gambles all their money away, this mousy, church-going housewife and mother of twin boys has to take matters into her own

hands. Against the advice of friends and family, 40-year-old Beth applies to become a deputy sheriff and embarks on the toughest journey of her life. Now, Recruit Dolinsky finds herself out of place in her new world, even though she no longer fits into her old one. As Beth fights for her family and her right to hold this position of strength, she must convince not only the inmates in the jail, but also the "squared-away" sergeants and deputies half her age (with double the attitude) that she really can fire a gun, perform strip searches that would make even the toughest inmate squirm, restrain men twice her size, and control 70 criminals with the strategic use of the f-word. And in the process, Beth manages to convince herself that she can handle anything that comes her way. *DISHRAGS TO DIRTBAGS* is a story of inner strength, motherhood, reinvention, and acceptance. "A surprisingly intimate view of the relationship and mutual respect between this deputy and her inmates. It's a must-read" Rosalie Pope, Author of *PUPPIES FOR SALE* \$25, winner of the Next Generation Indie Book Award

Lens; 2, (1873) Oxford : Clarendon P.

This book takes a fresh look at the most dynamic area of American law today, comprising the fields of copyright, patent, trademark, trade secrecy, publicity rights, and misappropriation. Topics range from copyright in private letters to defensive patenting of business methods, from moral rights in the visual arts to the banking of trademarks, from the impact of the court of patent appeals to the management of Mickey Mouse. The history and political science of intellectual property law, the challenge of digitization, the many statutes and judge-made doctrines, and the

interplay with antitrust principles are all examined. The treatment is both positive (oriented toward understanding the law as it is) and normative (oriented to the reform of the law). Previous analyses have tended to overlook the paradox that expanding intellectual property rights can effectively reduce the amount of new intellectual property by raising the creators' input costs. Those analyses have also failed to integrate the fields of intellectual property law. They have failed as well to integrate intellectual property law with the law of physical property, overlooking the many economic and legal-doctrinal parallels. This book demonstrates the fundamental economic rationality of intellectual property law, but is sympathetic to critics who believe that in recent decades Congress and the courts have gone too far in the creation and protection of intellectual property rights. Table of Contents: Introduction 1. The Economic Theory of Property 2. How to Think about Copyright 3. A Formal Model of Copyright 4. Basic Copyright Doctrines 5.

Copyright in Unpublished Works 6. Fair Use, Parody, and Burlesque 7. The Economics of Trademark Law 8. The Optimal Duration of Copyrights and Trademarks 9. The Legal Protection of Postmodern Art 10. Moral Rights and the Visual Artists Rights Act 11. The Economics of Patent Law 12. The Patent Court: A Statistical Evaluation 13. The Economics of Trade Secrecy Law 14. The Political Economy of Intellectual Property Law Conclusion Acknowledgments Index Reviews of this book: Chicago law professor William Landes and his polymath colleague Richard Posner have produced a fascinating new book...[The Economic Structure of Intellectual Property Law] is a broad-ranging analysis of how intellectual property should and does work...Shakespeare's copying from Plutarch, Microsoft's incentives to hide the source code for Windows, and Andy Warhol's right to copyright a Brillo pad box as art are all analyzed, as is the question of the status of the all-bran

cereal called 'All-Bran.'

--Nicholas Thompson, New York Sun Reviews of this book: Landes and Posner, each widely respected in the intersection of law and economics, investigate the right mix of protection and use of intellectual property (IP)...This volume provides a broad and coherent approach to the economics and law of IP. The economics is important, understandable, and valuable. --R. A. Miller, Choice Intellectual property is the most important public policy issue that most policymakers don't yet get. It is America's most important export, and affects an increasingly wide range of social and economic life. In this extraordinary work, two of America's leading scholars in the law and economics movement test the pretensions of intellectual property law against the rationality of economics. Their conclusions will surprise advocates from both sides of this increasingly contentious debate. Their analysis will help move the debate beyond the simplistic ideas that now tend to dominate.

--Lawrence Lessig, Stanford Law School, author of *The Future of Ideas: The Fate of the Commons in a Connected World* An image from modern mythology depicts the day that Einstein, pondering a blackboard covered with sophisticated calculations, came to the life-defining discovery: Time = \$\$.

Landes and Posner, in the role of that mythological Einstein, reveal at every turn how perceptions of economic efficiency pervade legal doctrine. This is a fascinating and resourceful book. Every page reveals fresh, provocative, and surprising insights into the forces that shape law.

--Pierre N. Leval, Judge, U.S. Court of Appeals, Second Circuit The most important book ever written on intellectual property. --William Patry, former copyright counsel to the U.S. House of Representatives, Judiciary Committee Given the immense and growing importance of intellectual property to modern economies, this book should be welcomed, even devoured, by readers who want to understand how the legal system affects the development, protection,

use, and profitability of this peculiar form of property. The book is the first to view the whole landscape of the law of intellectual property from a functionalist (economic) perspective. Its examination of the principles and doctrines of patent law, copyright law, trade secret law, and trademark law is unique in scope, highly accessible, and altogether greatly rewarding.

--Steven Shavell, Harvard Law School, author of *Foundations of Economic Analysis of Law*

New York Times-bestselling author and cultural critic Chuck Klosterman sorts through the past decade and how we got to now. Chuck Klosterman has created an incomparable body of work in books, magazines, newspapers, and on the Web. His writing spans the realms of culture and sports, while also addressing interpersonal issues, social quandaries, and ethical boundaries. Klosterman has written nine previous books, helped found and establish Grantland, served as the New York Times Magazine Ethicist, worked on film and television productions, and contributed profiles and essays to outlets such as

GQ, Esquire, Billboard, The A.V. Club, and The Guardian. Chuck Klosterman's tenth book (aka Chuck Klosterman X) collects his most intriguing of those pieces, accompanied by fresh introductions and new footnotes throughout. Klosterman presents many of the articles in their original form, featuring previously unpublished passages and digressions. Subjects include Breaking Bad, Lou Reed, zombies, KISS, Jimmy Page, Stephen Malkmus, steroids, Mountain Dew, Chinese Democracy, The Beatles, Jonathan Franzen, Taylor Swift, Tim Tebow, Kobe Bryant, Usain Bolt, Eddie Van Halen, Charlie Brown, the Cleveland Browns, and many more cultural figures and pop phenomena. This is a tour of the past decade from one of the sharpest and most prolific observers of our unusual times.
