In Learning with Information Systems the author takes the developing world as the context and through a series of case studies develops a commonly used systems analysis methodology. He demonstrates how this methodology can evolve and adapt as new ideas become prominent. Issues of sustainability of information systems, participation in systems design and user ownership of systems are all examined. This book does not attempt to be prescriptive for all contexts nor does it focus on any particular technology. It addresses the essential questions and promises practical approaches which will help in the avoidance of the worst forms of disaster associated with the planning of information systems for developing countries.

Miller's Collectables Handbook and Price Guide 2021-2022 Wentworth Press

"This book is about the people I met as I crisscrossed Australia by train and plane and L-plated car: the undefeated dreamers and wild-hearted romantics, the obsessed hobbyists and beautiful failures. It is about heroes and legends, illusions, delusions and hope, and one or two men with shit for brains who ought to be locked up." As anyone who's ever read Mark Dapin's column and features in Good Weekend knows, he's an immensely funny, acute and vivid observer of Australian life. In Strange Country, he takes us on a journey through a very different Australia - a country that's eccentric, puzzling, big-hearted, small-minded, nostalgic and sometimes just plain mad. From the last travelling boxing tent to feral urban sewer rats to Vietnam Veteran bikies and the annual Parkes Elvis Festival, his writing illuminates the stranger side of Australian life in a travel book like no other.

A Time to Speak Agate Digital

In recent years, politicians led by President Obama and prominent senators and governors have teamed with extremists on campus to portray our nation's institutions of higher learning as awash in a violent crime wave—and to suggest (preposterously) that university leaders, professors, and students are indifferent to female sexual assault victims in their midst. Neither of these claims has any bearing to reality. But they have achieved widespread acceptance, thanks in part to misleading alarums from the Obama administration and biased media coverage led by The New York Times. The frenzy about campus rape has helped stimulate—and has been fanned by—ideologically skewed campus sexual assault policies and lawless commands issued by federal bureaucrats to force the nation's all-too-compliant colleges and universities essentially to presume the guilt of accused students. The result has been a widespread disregard of such bedrock American principles as the presumption of innocence and the need for fair play. This book uses hard facts to set the record straight. It explores, among other things, nearly two dozen of the cases since 2010 in which students who in all likelihood would have or have subsequently been found not guilty in a court of law have, in a lopsided process, been hastily and carelessly branded as sex criminals and expelled or otherwise punished by their colleges, often after being tarred and feathered by their fellow students. And it shows why all students—and, eventually, society as a whole—are harmed when our nation's universities abandon pursuit of truth and seek instead to accommodate the passions of the mob. As detailed in the new Epilogue, some encouraging events have transpired since this book was first published in October 2016. A majority of the judicial rulings in dozens of lawsuits by male students claiming their schools treated them unfairly and discriminated against them based on their gender have rebuked the schools for their handling of these cases. And Education Secretary Betsy DeVos called for fairness to accused students and accusers alike, revoked most of the guilt-presuming Obama-era policies, and began a protracted rule-making process designed to

compel procedural fairness and nondiscrimination.

Where once the whim of the Hebrew God determined the fate of that tribe's greatest heroes, in Waxed Exceeding Mighty it is by the adulteries of seemingly everyone around him that Adam Athelstan is expelled from his garden, enslaved in the desert, enthroned in the jungle. Waxed Exceeding Mighty tells the ludicrously epic story of Adam Athelstan, an angelic young man who grows and sells, and sings to, very rare flowers. After his best friend's scorned fiancée inadvertently drives a boat onto his harbourside glasshouse, Adam takes a job as a delivery driver for an obscene florist. The moment he finally realises that his employer's primary business is in supplying arrangements to a brothel staffed by suicide-prone foreign sex-workers, Adam is mistaken for the recently-fugitive mistress of a politician and sent to the desert wilderness of an immigration detention centre. He inadvertently escapes and, terrified by the advances of the widow sheep-farmer who offers him refuge, elects to return to the detention centre as an employee. His naivete soon garners an outside job offer and he is flown to paradisiacal Vietnam, where he so excels at negotiating the return of gone-native tourists to their families that on an Apocalypse Now-style assignment his boss becomes wrathfully jealous and decides that he is going to kill him."

To Save a Forest Virgin is Shakespeare meets Sex and the City. With a depraved film producer as your protagonist, the new play from comedy novelist Joshua Humphreys tells the story of four people who spend an Australian summer falling in love, only to find that their affections might be manipulations, their lust a cruel conspiracy. Set entirely in Melbourne (part of it on the very beach upon which it was written) To Save a Forest Virgin contains much love, much wooing, and much... ahem. Sex. Written in a combination of Shakespearean English and our very very modern vernacular, this romantic conceited Comedy (often dirty) is a revolutionary and hilarious fusion of old and new.

'What mean'st thou consummation?' 'I would blow thee.' 'Blow me?' 'As the warm and moistest wind; I am as frisky as bonobo.'
