“ A true classic of world literature . . . A masterpiece that has inspired generations of writers in Nigeria, across Africa, and around the world. ” —Barack Obama “ African literature is incomplete and unthinkable without the works of Chinua Achebe. ” —Toni Morrison Nominated as one of America ’ s best-loved novels by PBS ’ s The Great American Read Things Fall Apart is the first of three novels in Chinua Achebe's critically acclaimed African Trilogy. It is a classic narrative about Africa's cataclysmic encounter with Europe as it establishes a colonial presence on the continent. Told through the fictional experiences of Okonkwo, a wealthy and fearless Igbo warrior of Umuofia in the late 1800s, Things Fall Apart explores one man's futile resistance to the devaluing of his Igbo traditions by British political and religious forces and his despair as

his community capitulates to the powerful new order. With more than 20 million copies sold and translated into fifty-seven languages, Things Fall Apart provides one of the most illuminating and permanent monuments to African experience. Achebe does not only capture life in a pre-colonial African village, he conveys the tragedy of the loss of that world while broadening our understanding of our contemporary realities.

Using data from a long-term ethnographic study of English language classrooms in a South African township, this book highlights linguistic expertise in a setting where it is not usually expected or sought. Rather than being ' peripheral and unskilled ' , South African township teachers and learners emerge as skilled (re)language central to the workings of South African education, and to our understanding of how language classrooms work. This book foregrounds the heterogeneity, flexibility and creativity of day-to-day language practices that African urban spaces are known for, and conceptualises language teaching not as a progression from one fixed language to another, but as a circular sorting process between linguistic heterogeneity (language) and homogeneity (a standard language).

“ This eloquent, elegant book thoughtfully

plumbs the . . . consequences of our dependence on plastics ” (The Boston Globe, A Best Nonfiction Book of 2011). From pacemakers to disposable bags, plastic built the modern world. But a century into our love affair, we ’ re starting to realize it ’ s not such a healthy relationship. As journalist Susan Freinkel points out in this eye-opening book, we ’ re at a crisis point. Plastics draw on dwindling fossil fuels, leach harmful chemicals, litter landscapes, and destroy marine life. We ’ re drowning in the stuff, and we need to start making some hard choices. Freinkel tells her story through eight familiar plastic objects: a comb, a chair, a Frisbee, an IV bag, a disposable lighter, a grocery bag, a soda bottle, and a credit card. With a blend of lively anecdotes and analysis, she sifts through scientific studies and economic data, reporting from China and across the

United States to assess the real impact of plastic on our lives. Her conclusion is severe, but not without hope. Plastic points the way toward a new creative partnership with the material we love, hate, and can ’ t seem to live without.

“ When you write about something so ubiquitous as plastic, you must be prepared to write in several modes, and Freinkel rises to this task. . . . She manages to render the most dull chemical reaction into vigorous, breathless sentences. ” —SF Gate “ Freinkel ’ s smart, well-written analysis of this love-hate relationship is likely to make plastic lovers take pause, plastic haters reluctantly realize its value, and all of us understand the importance of individual action, political will, and technological innovation in weaning us off our addiction to synthetics. ” —Publishers Weekly “ A compulsively interesting story. Buy it (with

cash). ” —Bill McKibben, author of *The End of Nature* “ What a great read—rigorous, smart, inspiring, and as seductive as plastic itself. ”
