The discourses contained in this book have a Divine Origin and the author acted as a mere scribe to undertake this sacred task to convey the Lord's Teachings and Pragmatic Messages. For man to live Divine lives, Swami's has repeatedly exhorted man to inculcate and embrace as a necessary way of life, the five eternal and essential human values which would assure man of a blissful and contented life on earth. Enshrined in these five human values: (Love, Peace, Truth, Right Conduct and Non-Violence), Swami has offered man Divine Solutions to live happy, balanced and a fulfilled human existence. These values are Universal and offer a panacea for Mankind's tortured and troubled existence. The profound Divine lessons and Mantras (Spiritual Truths) enunciated through Swami's Discourses resonate with a sublime, Divine Truth, which is soul-stirring and transports the reader to re-visit his Divine origin, which is man's birth-right.

It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours. At the heart of the book is the debate on whether the current standard of education in Africa is good enough . If not, then how can it be improved? The aim of this book is to provide a point of departure for discussions on standard-setting, quality assurance, equating of examinations and assessment approaches. From this point of departure recommendations for practices in general and the exit-level (Grade 12) examination results in particular can be made. This book is ideal reading for principals, teachers, academics and researchers in the fields of educational assessment, measurement, and evaluation.

This book explores how Estonia, despite high levels of poverty, has transformed its education system to become Europe's top performer on PISA (Programme for International Student Assessment). The engaging narrative uncovers reforms, mistakes and lessons learnt that have been harnessed to create a high-performing, high-equity education system, which includes social and education policies fostering equity, inclusion, learner autonomy, as well as schoolteacher and principal professionalism, autonomy and responsibility. It unearths how easy access to a wide range of data such as perceptions of well-being, autonomy and connectedness, in addition to examination results, builds internal and external accountability, and contributes to collective stakeholder efficacy. Grounded in research from Estonia and beyond, this is an ideal read for educators, administrators, academics, university students, change agents and parents interested in school system improvement. As equity, equality and inclusion are core drivers of the Estonian education system, this book would also be of interest to those working in social justice, inclusion and diversity.

South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and, to a much lesser extent, Afrikaans, but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools, which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students, not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.
