 This report is an
 integration of the
 seven reports which
 emerged from the
 research, and pulls
 together the findings
 arising from it. What
 emerges is that the
 resignation, death

 present educator
 force is likely to have
 a significant effect on
 replacement demand
 for educators over the

 Report marking

the 2015 deadline for the six goals set at the World Education Forum in Dakar, Senegal, in 2000 provides a considered and comprehensive accounting of global progress. As the international community prepares for a new development and education agenda, this report takes stock of past achievements and reflects on future challenges. There are many signs of notable advances. The pace towards

universal primary education has quickened, gender disparity has been reduced in many countries and governments are increasing their focus on making sure children receive an education of good quality. However, despite these efforts, the world failed to meet its overall commitment to Education for All. Millions of children and adolescents are still out of school, and it is the poorest and most disadvantaged

who bear the brunt of this failure to reach the EFA targets. Vegetarian Times Springer
