approaching conflicts as threats or problems to be solved, what if we could see our disagreements as opportunities for personal growth? Could our differences push us toward developing healthier relationships and communities? In *The Space Between Us*, facilitator and mediator Betty Pries gently guides readers toward seeing discord as an opportunity for positive change and a way to build resilience. Rooted in the conviction that conflict can strengthen our relationships

and deepen our self-knowledge, Pries offers practical skills for engaging conflict and casts a vision for a more joy-filled future. To get here, Pries plumbs the depth of both conflict theory and contemplative spirituality, proposing a vision for engaging conflict in new and life-giving ways. Rooted in Christian practices of mindfulness, connecting with our most authentic selves, and deep listening to uncover new possibilities, this book offers new ways forward in the face of interpersonal and

organizational conflicts. **Conflict Resolution and the Scholarship of Engagement** Cambridge University Press Super series are a set of workbooks to accompany the flexible learning programme specifically designed and developed by the Institute of Leadership & Management (ILM) to support their Level 3 Certificate in First Line Management. America's Peacemakers: The Community Relations Service and Civil Rights tells the behind-the-scenes story of a small federal agency that made a big difference in civil rights conflicts over the last half century. In this second edition of Resolving Racial Conflict: The Community Relations Service and Civil Rights, 1964 – 1989, Grande Lum continues Bertram Levine ' s excellent scholarship, expanding the narrative to

consider the history of the Community Relations Service (CRS) of the U.S. Department of Justice over the course of the last three decades. That the Trump administration has sought to eliminate CRS gives this book increased urgency and relevance. Covered in this expanded edition are the post – 9/11 efforts of the CRS to prevent violence and hate crimes against those perceived as Middle Eastern. Also discussed are the cross-border Eli á n Gonz á lez custody dispute and the notable tragedies of Trayvon Martin and Michael Brown, both of which brought police interaction with communities of color back into the spotlight. The 2009 Matthew Shepard and James

Byrd, Jr., Hate Crimes Prevention Act substantially altered CRS ' s jurisdiction, which began to focus on gender, gender identity, religion, sexual orientation, and disability in addition to race, color, and national origin. Lum ' s documentation of this expanded jurisdiction provides insight into the progression of civil rights. The ongoing story of the Community Relations Service is a crucial component of the national narrative on civil rights and conflict resolution. This new edition will be highly informative to all readers and useful to professionals and academics in the civil rights, dispute resolution, domestic and international peacemaking, and law

enforcement-community relations fields.

The SAGE Handbook of Conflict Resolution demonstrates the range of themes that constitute modern conflict resolution. It brings out its key issues, methods and dilemmas

through original contributions by leading scholars in a dynamic and expanding field of inquiry. This handbook is exactly what it sets out to be: an indispensable tool for teaching, research and practice in conflict resolution? - Peter Wallensteen, Professor of Peace and Conflict Research, Uppsala University and University of Notre Dame ?Bercovitch, Kremenyuk and Zartman are among the most important figures in the conflict resolution field. They have pieced together, with the help of more than 35 colleagues from numerous countries, a state-of-the-art review of the sources of international conflict, available methods of conflict management, and the

most difficult challenges facing individuals and organizations trying to guide us through these conflict-ridden times. The collection is brimming with penetrating insights, trenchant analyses, compelling cases, and disciplined speculation. They help us understand both the promise of as well as the obstacles to theory-building in the new field of conflict resolution? - Lawrence Susskind, Professor and Director of the MIT - Harvard Public Disputes Program ?The last three sentences of this persuasive book: "We conclude this volume more than ever convinced that conflict resolution is not just possible or desirable in the current international environment. It is

absolutely necessary. Resolving conflicts and making peace is no longer an option; it is an intellectual and practical skill that we must all possess." If you are part of that "we," intellectually or professionally, you will find this book a superb companion? - Thomas C Schelling, Professor Emeritus, Harvard University and University of Maryland Conflict resolution is one of the fastest-growing academic fields in the world today. Although it is a relatively young discipline, having emerged as a specialized field in the 1950's, it has rapidly grown into a self-contained, vibrant, interdisciplinary field. The SAGE Handbook of Conflict Resolution brings together all the conceptual,

methodological and substantive elements of conflict resolution into one volume of over 35 specially commissioned chapters. The Handbook is designed to reflect where the field is today by drawing on the contributions of experts from different fields presenting, in a systematic way, the most recent research and practice. Jacob Bercovitch is Professor of International Relations, and Fellow of the Royal Society, at the University of Canterbury in Christchurch, New Zealand. **Managing Conflict in the  
Workplace** Stylus Publishing  
(VA)

Ethno-national conflict is one of  
the central issues of modern  
politics. Despite the emergence of  
approaches to managing it, from  
nation-building to territorial  
autonomy, in recent years, the  
application of these approaches  
has been uneven. Old conflicts  
persist and new ones continually  
emerge. The authors of this book  
contend that what is needed to  
drive forward the theory and

practice of ethno-national conflict  
management is a more nuanced  
understanding of ethnicity and  
nationalism. The book addresses  
this issue by linking theories of  
ethnicity and nationalism to  
theories of conflict management.  
Its contributors share a common  
goal of demonstrating that a  
nuanced understanding of  
ethnicity and nationalism can  
beneficially inform conflict  
management in theory and  
practice. To do so, they analyse  
both hot and cold conflict zones,  
as well as cases that have been  
important in the development of  
the most widely-used conflict  
management models. The book is  
aimed at those interested in the  
theory and practice of ethno-

national conflict management as  
well as the study of ethnicity and  
nationalism. It is well-suited for  
undergraduate and advanced  
research students, experts and  
policy-makers. This book was  
originally published as a special  
issue of *Commonwealth and  
Comparative Politics*.

Untapped Power provides extensive insight into why and how to advance diversity, equity and inclusion when promoting development, and addressing fragility and violent conflict. Urgent challenges relating to diversity and inclusion are universal. The global #MeToo and #BlackLivesMatter movements as well as the push for LGBTQ+ rights are all emblematic of a growing interest in and focus on how to better embrace and capitalize on diversity. Yet these social movements exist alongside renewed efforts to constrain minority rights and stem immigration around the world. In

Untapped Power, Carla Koppell has assembled a leading group of scholars, policy makers, researchers, and activists to provide a comprehensive overview for understanding and navigating these countervailing forces, so that we can build a more peaceful and inclusive world. This book synthesizes theory, research, and analysis to show why an enduring global commitment to diversity and inclusion is essential, and how to advance that agenda in practical terms. It considers major scholarly theories and analytical frameworks underlying the case for a focus on diversity and inclusion; analyzes diversity trends and movements for

inclusion; outlines specific strategies and approaches for promoting inclusion throughout peacebuilding and development processes; and discusses priorities to advance the agenda through research, advocacy, financial investments, and programming. A guide to one of the most pressing issues in world politics, this book will be essential for anyone working in the fields of global development, conflict resolution, or peace building.

Conflict Resolution Beyond the Realist Paradigm SAGE

This book examines the remaking of women's citizenship in the aftermath of conflict and international intervention. It develops a feminist critique of consociationalism as the dominant model of post-conflict governance by tracking the gendered implications of the

Dayton Peace Agreement. It illustrates how the legitimisation of ethnonationalist power enabled by the agreement has reduced citizenship to an all-encompassing logic of ethnonational belonging and implicitly reproduced its attendant patriarchal gender order. Foregrounding women's diverse experiences, the book reveals gendered ramifications produced at the intersection of conflict, ethno-nationalism and international peacebuilding. Deploying a multidimensional feminist approach centred around women's narratives of belonging, exclusion, and agency, this book offers a critical interrogation of the promises of peace and explores individual/collective

efforts to re-imagine citizenship. *Reframing Campus Conflict* Van Rye Publishing, LLC  
*The SAGE Handbook of Conflict Communication: Integrating Theory, Research, and Practice* is the first resource to synthesize key theories, research, and practices of conflict communication in a variety of contexts. Editors John Oetzel and Stella Ting-Toomey, as well as expert researchers in the field, emphasize constructive conflict management from a communication perspective

which places primacy in the message as the focus of conflict research and practice.

An Introduction to U.S. Collective Bargaining and Labor Relations John Wiley & Sons

Conflict Resolution holds the promise of freeing approaches and policies with regard to politics of identity from the fatalistic grip of realism. While the conceptual literature on identity and conflicts has moved in this alternative direction, conflict resolution practice continues to rely on realist frames and acts as an

unwanted auxiliary to traditional international relations. Perpetuation of conflict discourses, marginalization, and exclusion of affected populations are widespread. They are caused by the overreliance of conflict resolution practice on the binary frames of classic IR paradigms and also by the competitive and hierarchical relationships within the field. Philip Gamaghelyan relies on participatory action research and collective autoethnography to expose patterns of exclusion and marginalization as well as the paradoxical reproduction of

conflict-promoting frames in current conflict-resolution practice applied to the Nagorno-Karabakh and Syrian crises. He builds on the work of postmodernist scholars, on reflective practice, and on discourse analysis to explore alternative and inclusive strategies with a transformative potential. The IR discipline that has dominated policymaking is only one possible lens, and often a deficient one, for defining, preventing, or resolving contemporary conflicts wrapped in identity politics. Other conceptual frameworks can help to rethink

---

our understanding of identity and conflicts and reconstruct them as performative and not static phenomena. These transformative frameworks are increasingly influential in the conflict resolution field and can be applied to policymaking.

*Reframing Campus Conflict*

Cornell University Press

This fully revised and updated second edition builds upon the original vision of the first, which was to give voice to diverse and inclusive perspectives, identities, and practices and to enact the principle that student conduct and conflict response must be based upon foundations of social justice and restorative justice to disrupt and transform overly legalistic and escalated management applications in student conduct administration. The Spectrum Model (Schrage & Thompson,

---

2008) approach centers advocacy for inclusive conflict excellence by expanding traditional adjudication pathways to include dialogue, conflict coaching, mediation, restorative practices, and shuttle diplomacy for a more robust and inclusive expression of conflict and conduct practices. In the intervening decade, this co-edited work has become more relevant than ever as colleges and universities continue to be the targets of litigation, activists, lawmakers and public officials who have, for instance, changed the Title IX rules for responding to sexual misconduct. Civility, hate crimes, activism, immigration, nationalism, and free speech are all again on the

forefront of challenges impacting the current campus climate. New chapters cover these and other issues including the unprecedented COVID-19 pandemic response and impact on equity and justice in higher education, and amplified calls for racial justice and police reform. The book is further enhanced by chapter case studies, summaries and questions for dialogue, to encourage further reflection by the reader and bolster the usefulness of the work as a textbook and campus training guide. The second edition is a must-have resource for broad stakeholders invested in inclusive conflict excellence and principled leadership in education in the

midst of a shifting and increasingly polarized landscape. This includes legal counsel, higher education presidents, senior student affairs administrators and faculty leadership as well as student conduct practitioners across conduct boards, hearing and appeal officers, residential and organizational staff engaged in student facing campus climate work. Reframing Campus Conflict further offers transferable content that supports inclusive conflict excellence inquiry and application in graduate programs, K-12, special education and human resource management practices. This book is for all educators, administrators, practitioners and leaders committed to engaging

---

campus conflict work through the inclusive lenses of social, restorative, transformative and procedural justice.

profiles provide readers with insight as to strategies they might use to advance their peacebuilding careers. The book speaks directly to the Millennial generation, recognizing that launching a career is a major focus, and that careers in the peace field have not always been easy to identify.
