The Wolf at the Door explores the remarkable formal and substantive patterns of cinematic discourse on Germany and

the Holocaust in Stanley Kubrick's films. It is the first book on Kubrick to place his cinema into the full context of his life and times - his Jewish past, early years spent under the shadows of fascism and war, and his 1957 marriage into a German family of artists and filmmakers - all provoked his deeply ambivalent preoccupation with the history of Nazi Germany and the Holocaust. The Wolf at

the Door draws on intensive study of all of Kubrick's films, interviews with members of Kubrick's immediate family, and archival research in the United States, Germany, the Netherlands, Poland, and Israel.

She has a son, Luca, the love of her life, and a wonderful husband who is a journalist. And while there are cracks beginning to show in Acapulco because of the drug cartels, her life is, by and large, fairly comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite

books in her store. And then one day a man enters the shop to browse and comes up to the register with a few books he would like to buy--two of them her favorites. Javier is erudite. He is charming. And, unbeknownst to Lydia, he is the jefe of the newest drug cartel that has gruesomely taken over the city. When Lydia's husband's tell-all profile of Javier is published, none of their lives will ever be the same. Forced to flee, Lydia and eight-year-old Luca soon find themselves miles and worlds away from their comfortable middle-class existence. Instantly transformed into migrants, Lydia and Luca ride la bestia--trains that make their way north toward the United

States, which is the only place Javier's reach doesn't extend. As they join the countless people trying to reach el norte, Lydia soon sees that everyone is running from something. But what exactly are they running to? American Dirt will leave readers utterly changed. It is a literary achievement filled with poignancy, drama, and humanity on every page. It is one of the most important books for our times. Already being hailed as "a Grapes of Wrath for our times" and "a new American classic," Jeanine Cummins's American Dirt is a rare exploration into the inner hearts of people willing to sacrifice everything for a glimmer of hope. Stanley Kubrick ranks among the most important American film makers of his

generation, but his work is often misunderstood because it is widely diverse in subject matter and seems to lack thematic and tonal consistency. Thomas Nelson's perceptive and comprehensive study of Kubrick rescues him from the hostility of auteurist critics and discovers the roots of a Kubrickian aesthetic, which Nelson defines as the "aesthetics of contingency." After analyzing how this aesthetic develops and manifests itself in the early works, Nelson devotes individual chapters to *Lolita*, *Dr. Stangelove*, *2001: A Space Odyssey*, *A Clockwork Orange*, *Barry Lyndon*, and *The Shining*. For this expanded edition, Nelson has added chapters on *Full Metal Jacket* and *Eyes Wide Shut*, and, in the wake of the director's death, reconsidered his body of work as a whole. By placing Kubrick in a historical and theoretical context, this study is a reliable guide into—and out of—Stanley Kubrick's cinematic maze. *Stanley Kubrick, History, & the*

to High Place, a distant house in the Mexican countryside. She's not sure what she will find—her cousin's husband, a handsome Englishman, is a stranger, and Noemí knows little about the region. Noemí is also an unlikely rescuer: She's a glamorous debutante, and her chic gowns and perfect red lipstick are more suited for cocktail parties than amateur sleuthing. But she's also tough and smart, with an indomitable will, and she is not afraid: Not of her cousin's new husband, who is both menacing and alluring; not of his father, the ancient patriarch who seems to be fascinated by Noemí; and not even of the house itself, which begins to invade Noemí's dreams with visions of blood and doom. Her only ally in this inhospitable abode is the family's youngest son. Shy and gentle, he seems to want to help Noemí, but might also be hiding dark knowledge of his family's past. For there are many secrets behind the walls of High

Place. The family's horror read, and once colossal wealth and faded mining empire kept them from prying eyes, but as Noemí digs deeper she unearths stories of violence and madness. And Noemí, mesmerized by the terrifying yet seductive world of High Place, may soon find it impossible to ever leave this enigmatic house behind. The Wolf at the Door iUniverse Writing in Space, 1973-2019 gathers the writings of conceptual artist Lorraine O'Grady, who for over forty years has investigated the complicated relationship between text and image. A firsthand account of O'Grady's wide-ranging practice, this volume contains statements, scripts, and previously unpublished notes charting the development of her performance work

and conceptual photography; her art and music criticism that appeared in the Village Voice and Artforum; critical and theoretical essays on art and culture, including her classic "Olympia's Maid"; and interviews in which O'Grady maps, expands, and complicates the intellectual terrain of her work. She examines issues ranging from black female subjectivity to diaspora and race and representation in contemporary art, exploring both their personal and their institutional

implications. O'Grady's writings—introduced in this collection by critic and curator Aruna D'Souza—offer a unique window into her artistic and intellectual evolution while consistently plumbing the political possibilities of art.

In the gray chill of a Massachusetts autumn, the Templetons and two local handymen, loners and eccentrics, work to rebuild the ramshackle home. This book examines the manifestations of materiality across different gothic media to show the inhuman at the heart of literature, film and

outlining a philosophy of horror that deals with the horror of the nonhuman, the machine and the nonorganic. The author explores how materiality lends itself ideally to discussions of gothic and horror and acts as a threat to attempts to control meaning which falls outside the realm of consciousness. It brings the two together by examining the manifestations of this materiality to focus on a form of horror that is concerned with the (in) human by reading blood as the conduit of an unnameable materiality that circulates through gothic media, seducing with its familiar mask of gothic aesthetics only to uncover the horror of a totally

alienating and inhuman otherness. Film, media, popular culture, philosophy and nineteenth-century literature are brought together and juxtaposed to create a continuity of ideas, and highlighting differences. The book offers innovative readings of notions of blood inscription in different media, of the Dark Web, accelerationism and technoscience to account for the widespread haemophilia in contemporary culture. This title is an essential read for researchers, undergraduate and postgraduate students in film studies, media studies, literature, philosophy, cultural theory and popular culture. Its interdisciplinary nature, clear exposition of thought and theoretical ideas will make it a key resource for both students and for general readers with an interest in contemporary horror, media and pop culture.
