Essential Grammar in Use With Answers

Multilingual Matters

This book investigates some of the learning
processes of students of French and German
as they begin language learning at an
advanced level, a stage which is frequently
problematic. By looking at the learning
strategies employed by both successful and
less successful language students, the author
elucidates some of the key cognitive and
affective processes which facilitate advanced
level language learning. The implications of
this for the classroom are discussed in detail,
leading to practical recommendations for
learning and teaching strategies. A central
theme is the need to teach explicitly the
proficient use of learning strategies, and
suggestions are made as to how this may be
achieved in the language classroom.
