Hexagonal Graph Paper Notebook: 1/2 Inch Hexagons
Createspace Independent Publishing Platform
Looking for a notebook for

your campaign maps and diagrams or simply just for drawing? Our printable hexagonal grid paper comes in three sizes (1 inch, inch and inch). Use it to make game boards, for math activities or for designing and coloring patterns. These can also be used to map geometric tiled or tessellated designs aside from its use in graphs, gaming, mapping and structuring sketches. The hexagonal graph paper is very interesting and versatile on its own but you'll love it even more with our added features and benefits.

IT'S BUILT TO LAST- The sturdy cover is made of tough paperback with strong, secure

professional trade binding so the pages won't fall out after a few months of use. WELL-CRAFTED INTERIOR- We used only thick, white paper to avoid ink bleed-through. All the lines are printed dark grey, instead of pure black, so the lines are less distracting while writing & drawing. PERFECT SIZE- With its 8.5" x 11" dimensions, you can squeeze it into a bag with ease. It's the perfect size- easy to carry! INSPIRING COVERS- To top it all, we have an array of cover designs to choose from. Get inspired by our collection of truly creative book covers.
