How do I best facilitate conversations on climate change with people from a different generation - or political background - than my own? In Growing Up in the Grassroots: Finding Unity in Climate Activism Across Generations, Joy Reeves seeks to answer this question and more as she delves into the intergenerational and partisan misunderstandings she witnesses regularly in her environmental science and policy career. This book brings together the stories of people and groups from all walks of life, including: Chlöe Swarbrick - a New Zealand parliamentarian and millennial, who challenged older politicians on climate action and inadvertently sparked an online movement. Bob Inglis - a 61-year-old Republican politician and father who radically changed his views on climate change while maintaining his Republican beliefs. "The Raging Grannies" - a troupe of elderly activists across the globe that you may stumble across singing hilarious protest songs...but otherwise defy the "little old lady" stereotype. Even in a world that is polarized by political party and generational differences, there are vast opportunities for older and younger generations to find common ground and move forward collaboratively on climate change. Delve into the history and future of climate activism with Growing Up in the Grassroots.

Patagonia Tools for Grassroots Activists Princeton University Press
MAKERS is the award-winning video collection of women's stories. And we're bringing these inspirational and amazing stories to young readers in a book! Did you know that Kathrine Switzer, the first woman to complete the Boston marathon in 1967, was almost pulled off the course before she could finish the race? And that Mae Jemison, an astronaut, was inspired by a Star Trek character to pursue her passion in science? Behind every successful woman is the fascinating story of how she got to the top. And throughout history, trailblazing women have opened doors for those who followed. Based on the rich collection of interviews and documentaries from MAKERS, this book introduces pioneering women from all walks of life. Readers will get to know these women's hopes, dreams, challenges, and accomplishments in chapters filled with personal stories, historical information, inspiring quotes, and much more. They will learn about the women's movement and its impact today, and about common experiences women have. Most importantly, they'll be inspired to follow their dreams and become MAKERS themselves!

Learn the tactics for designing and producing creative digital images based on the guerrilla ethic: use less money, less time, fewer tools and new rules. The companion CD-ROM contains creative software, stock footage and sample projects.

Level Best Pacific University Press
From Jennifer Baumgardner, one of the leading voices of Third Wave feminism, comes this provocative, thoughtful, often funny collection of essays and interviews that offers a state of the union on contemporary feminist issues. F 'em! is a mix of old and new essays by Baumgardner, ranging in tone from laugh-out-loud confessional to sobering analysis. She investigates topics as varied as purity balls, sexuality, motherhood, and shared breastfeeding; rape, reproductive rights, and the future of feminism. The essays in F 'em! are rounded out by candid one-on-one interviews with leading feminists who have influenced Baumgardner's perspectives—including Riot Grrrls' Kathleen Hanna, Native American activist Winona LaDuke, transgender activist Julia Serano, and artists like Ani DiFranco, Björk, and Amy Ray. At turns intimate, fierce, philosophical, and funny, they are an intimate window into the minds and hearts of Third Wave pioneers. Holding it all together is Baumgardner's insightful thinking about what it means to be a feminist today, as she answers frequently-asked questions: What does it mean to be a woman today? Do we even need feminism anymore? Thought-provoking and cutting-edge, F 'em! provides a clearer and more complete understanding of feminism—its past, its present, and its future.

We Are Makers Emerald Group Publishing
In this book, Nobel Prize-winning economist Edmund Phelps draws on a lifetime of thinking to make a sweeping new argument about what makes nations prosper--and why the sources of that prosperity are under threat today. Why did prosperity explode in some nations between the 1820s and 1960s, creating not just unprecedented material wealth but "flourishing"--meaningful work, self-expression, and personal growth for more people than ever before? Phelps makes the case that the wellspring of this flourishing was modern values such as the desire to create, explore, and meet challenges. These values fueled the grassroots dynamism that was necessary for widespread, indigenous innovation. Most innovation wasn't driven by a few isolated visionaries like Henry Ford and Steve Jobs; rather, it was driven by millions of people empowered to think of, develop, and market innumerable new products and processes, and improvements to existing ones. Mass flourishing--a combination of material well-being and the "good life" in a broader sense--was created by this mass innovation. Yet indigenous innovation and flourishing weakened decades ago. In America, evidence indicates that innovation and job satisfaction

have decreased since the late 1960s, while postwar Europe has never recaptured its former dynamism. The reason, Phelps argues, is that the modern values underlying the modern economy are under threat by a resurgence of traditional, corporatist values that put the community and state over the individual. The ultimate fate of modern values is now the most pressing question for the West: will Western nations recommit themselves to modernity, grassroots dynamism, indigenous innovation, and widespread personal fulfillment, or will we go on with a narrowed innovation that limits flourishing to a few? A book of immense practical and intellectual importance, Mass Flourishing is essential reading for anyone who cares about the sources of prosperity and the future of the West.

Manifesta [10th Anniversary Edition] University of Michigan Press

F 'em! Greenwood Publishing Group
Looks at the emerging phenomenon of online journalism, including Weblogs, Internet chat groups, and email, and how anyone can produce news.

Maoism at the Grassroots Zed Books Ltd.
From the authors of Manifesta, an activism handbook that illustrates how to truly make the personal political. Grassroots is an activism handbook for social justice. Aimed at everyone from students to professionals, stay-at-home moms to artists, Grassroots answers the perennial question: What can I do? Whether you are concerned about the environment, human rights violations in Tibet, campus sexual assault policies, sweatshop labor, gay marriage, or the ongoing repercussions from 9-11, Jennifer Baumgardner and Amy Richards believe that we all have something to offer in the fight against injustice. Based on the authors' own experiences, and the stories of both the large number of activists they work with as well as the countless everyday people they have encountered over the years, Grassroots encourages people to move beyond the "generic three" (check writing, calling congresspeople, and volunteering) and make a difference with clear guidelines and models for activism. The authors draw heavily on individual stories as examples, inspiring readers to recognize the tools right in front of them--be it the office copier or the family living room--in order to make change. Activism is accessible to all, and Grassroots shows how anyone, no matter how much or little time they have to offer, can create a world that more clearly reflects their values.

The Machine Cmp Books
A freelance journalist and former blogger for ThinkProgress explains the dynamics of what he sees as the conservative propaganda machine, reveals where the money comes from and how it is spent and looks at how the right wing plans to crush Obama and progressive reform, taking ordinary Americans hostage along the way.

Earth Repair Brookings Institution Press
Covers issues and events in women's history that were previously unpublished, misplaced, or forgotten, and provides new perspectives on each event.

Grassroots A K PressDistribution
A priceless resource for everyone ready to make a difference, environmental activist Aidan Ricketts offers a step-by-step handbook for citizens eager to start or get involved in grass-roots movements and beyond. Providing all essential practical tools, methods and strategies needed for a successful campaign and extensively discussing legal and ethical issues, this book empowers its readers to effectively promote their cause. Lots of ready-to-use documents and comprehensive information on digital activism and group strategy make this book an essential companion for any campaign. Including case studies from the US, UK, Canada and Australia, this is the ultimate guidebook to participatory democracy.

The bible of grassroots fundraising, updated with the latest tools and methods Fundraising for Social Change is the preeminent guide to securing funding, with a specific focus on progressive nonprofit organizations with budgets under \$5 million. Used by nonprofits nationally and internationally, this book provides a soup-to-nuts prescription for building, maintaining, and expanding an individual donor program. Author Kim Klein is a recognized authority on all aspects of fundraising, and this book distills her decades of expertise into fundraising strategies that work. This updated seventh edition includes new information on the impact of generational change, using social media effectively, multi-channel fundraising, and more, including expanded discussion on retaining donors and on legacy giving. Widely considered the 'bible of grassroots fundraising,' this practically-grounded guide is an invaluable resource for anyone who has to raise money for important causes. A strong, sustainable fundraising strategy must possess certain characteristics. You need people who are willing to ask and realistic goals. You need to gather data and use it to improve results, and you need to translate your ideas in to language donors will understand. A robust individual donor program creates stable and long-term cash flow, and this book shows you how to structure your fundraising appropriately no matter how tight your initial budget. Develop and maintain a large base of individual donors Utilize strategies that pay off sooner rather than later Expand your reach and get your message out to the donor pool Translate traditional fundraising methods into strategies that work for social justice organizations with little or no front money Basing your fundraising strategy on the contributions of individual donors may feel like herding cats—but it's the best way for your organization to maintain maximum freedom to pursue the mission that matters. A robust, organized, planned approach can help you reach your goals sooner, and Fundraising for Social Change is the field guide for putting it all together to make big things happen.

A Field Guide to Conservation Finance Rowman & Littlefield Publishers

The twentieth anniversary release of a groundbreaking feminist text: a powerful indictment of the current state of feminism, and a passionate call to arms Today, people of all genders strive to uphold the goals of feminism and proudly embrace the term, but the movement itself is often beset with confusion and questions. Does personal empowerment happen at the expense of politics? Is feminism for the few—or does it speak to the many as they bump up against daily injustices? What does it mean to say "the future is female"? In 2000, Jennifer Baumgardner and Amy Richards's Manifesta set out to chronicle the feminism of their generation. They brilliantly revealed the snags in various hubs of the movement—from antipathy to the term itself to the hyped hatred of feminism's imperfect spokespeople—and showed that these snags had not imperiled the feminist cause. The book went on to inspire a new generation of readers and has become a classic of contemporary feminist literature. In the decades since Manifesta was published, the world has changed in ways both promising and terrifying. This twentieth anniversary edition of Manifesta features an updated bibliography, timeline, and resources, as well as a new introduction by the authors. Expertly unpacking both early women's history and the Third Wave feminism that seeded the active righteous intersectionality we see today, Manifesta remains an urgent and necessary tool to make sense of our past, present, and future.

Growing Up in the Grassroots Cornell University Press

Using vivid images and detailed explanations, Gerrish takes graziers step by step through the MiG system. He begins from the ground up with the soil, and advances through the management of pastures and animals. Written for those new to MiG grazing, Gerrish's insight and personal experience can help experienced graziers fine tune their grazing operations for added income.

Digital Guerrilla Video Harvard University Press

Maoism at the Grassroots challenges state-centered views of China under Mao, providing insights into the lives of citizens across social strata, ethnicities, and regions. It reveals how ordinary people risked persecution and imprisonment in order to assert personal beliefs and identities, despite political repression and surveillance.

We the Media Beacon Press

“A stunning debut by a truly gifted writer—an eye-opening read for both liberals and conservatives—and it could not come at a better time.”—Adam Grant, New York Times bestselling author of Option B, with Sheryl Sandberg What is the opposite of hate? As a progressive commentator on Fox News and now CNN, Sally Kohn has made a career out of bridging intractable political differences and learning how to talk respectfully with people whose views she disagrees with passionately. Her viral TED Talk on the need to practice emotional—rather than political—correctness sparked a new way of considering how often we amplify our differences and diminish our connections. But these days even famously “nice” Kohn finds herself wanting to breathe fire at her enemies. It was time, she decided, to look into the epidemic of hate all around us and learn how we can stop it. In *The Opposite of Hate*, Kohn talks to leading scientists and researchers and investigates the evolutionary and cultural roots of hate and how incivility can be a gateway to much worse. She travels to Rwanda, the Middle East, and across the United States, introducing us to former terrorists and white supremacists, and even some of her own Twitter trolls, drawing surprising lessons from dramatic and inspiring stories of those who left hate behind. As Kohn confronts her own shameful moments, whether it was back when she bullied a classmate or today when she harbors deep partisan resentment, she discovers, “The opposite of hate is the beautiful and powerful reality of how we are all fundamentally linked and equal as human beings. The opposite of hate is connection.” Sally Kohn's engaging, fascinating, and often funny book will open your eyes and your heart.

Creative Community Organizing Roxana Radu

Level Best offers guidance that demystifies evaluation and takes into account the unique challenges and realities of grassroots nonprofit organizations. It provides a new framework for thinking about evaluation and tools for measuring and sharing results in ways that are practical, efficient, and meaningful.

Red State Rebels Chalice Press

Finally, a comprehensive book on land conservation financing for community and regional conservation leaders. *A Field Guide to Conservation Finance* provides essential advice on how to tackle the universal obstacle to protecting private land in America: lack of money. Story Clark dispels the myths that conservationists can access only private funds controlled by individuals or that only large conservation organizations have clout with big capital markets. She shows how small land conservation organizations can achieve conservation goals using both traditional and cutting-edge financial strategies. Clark outlines essential tools for raising money, borrowing money, and reducing the cost of transactions. She covers a range of subjects including transfer fees, voluntary surcharges, seller financing, revolving funds, and Project Related Investment programs (PRIs). A clear, well-written overview of the basics of conservation finance with useful insights and real stories combine to create a book that is an invaluable and accessible guide for land trusts seeking to protect more land.
