Tame Your Anxiety Cleis Press

Harold Bloom explores our Western literary tradition by concentrating on the works of twenty-six authors central to the Canon. He argues against ideology in literary criticism; he laments the loss of intellectual and aesthetic standards; he deplores multiculturalism, Marxism, feminism, neoconservatism, Afro-centrism, and the New Historicism.

A Lexicon of Western Thought Grand Central Publishing

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart, as told by its correspondents,

writers, and host. For almost seventeen years, *The Daily Show* with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of *The Daily Show*'s most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a

reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, *The Daily Show* has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

The Essential Introduction to the Greatest Idea of Western Civilisation Simon and Schuster

AARP Digital Editions offer you practical tips, proven solutions, and expert guidance. Successful people don't sit around waiting for everything to be "100%" right or to be "absolutely sure" they will succeed. They don't need absolute assurance, because they realize life doesn't provide any. To get what they want out of life, they set specific goals and put together a formal plan to achieve those goals, one step at a time. Successful people know that the cost of failure is modest compared to that of inaction. Failure means they are smarter the next time. Inaction means there is no next time—there's only a lifetime of regret.

In *The Pledge: Your Master Plan for an Abundant Life*, author Michael Masterson reveals how to become successful—and not just financially, but in every area of life. The book offers simple tips to making immediate changes and to establishing long-term goals. Details strategies on becoming more productive at the

office and defeating depression. Explains why simplifying goals into four major ones makes them much easier to achieve. *The Pledge* teaches readers how to start and finish projects they have been dreaming about for years, boost confidence, strengthen skills, build wealth, and enjoy life.

The Great Books Reader Oxford University Press, USA

Time magazine called Mortimer J. Adler a "philosopher for everyman." In this guide to considering the big questions, Adler addresses the topics all men and women ponder in the course of life, such as "What is love?", "How do we decide the right thing to do?", and, "What does it mean to be good?" Drawing on his extensive knowledge of Western literature, history, and philosophy, the author considers what is meant by democracy, law, emotion, language, truth, and other abstract concepts in light of more than two millennia of Western civilization and discourse. Adler's essays offer a remarkable and contemplative distillation of the Great Ideas of Western Thought.

The Journey to the West Scribner

Containing chapters 51-100 of China's best-loved work, in an edited, yet complete and wholly accurate translation for the Western reader. Travel with Monkey, Pig, Friar Sand and the Tang Priest as they continue their journey to India and finally attain the scriptures. Volume 2 contains some of the most famous episodes from this classic, including Monkey's duel with the Princess Iron Fan.

Rescuing Socrates Penguin UK

An editor and writer's vivaciously entertaining, and often moving, chronicle of his year-long adventure with fifty great books (and two not-so-great ones)—a true story about reading that reminds us why we should all make time in our

lives for books. Nearing his fortieth birthday, author and critic Andy Miller realized he's not nearly as well read as he'd like to be. A devout book lover who somehow fell out of the habit of reading, he began to ponder the power of books to change an individual life—including his own—and to define the sort of person he would like to be. Beginning with a copy of Bulgakov's *Master and Margarita* that he happens to find one day in a bookstore, he embarks on a literary odyssey of mindful reading and wry introspection. From *Middlemarch* to *Anna Karenina* to *A Confederacy of Dunces*, these are books Miller felt he should read; books he'd always wanted to read; books he'd previously started but hadn't finished; and books he'd lied about having read to impress people. Combining memoir and literary criticism, *The Year of Reading Dangerously* is Miller's heartfelt, humorous, and honest examination of what it means to be a reader. Passionately believing that books deserve to be read, enjoyed, and debated in the real world, Miller documents his reading experiences and how they resonated in his daily life and ultimately his very sense of self. The result is a witty and insightful journey of discovery and soul-searching that celebrates the abiding miracle of the book and the power of reading.

50 Years of Presidents and Their Pets W. W. Norton & Company
THE NATIONAL BESTSELLER At the age of forty-eight, writer and film critic David Denby returned to Columbia University and re-enrolled in two core courses in Western civilization to confront the literary and philosophical masterpieces -- the "great books" -- that are now at the heart of the culture wars. In *Great Books*, he leads us on a glorious tour, a rediscovery and celebration of such authors as Homer and Boccaccio, Locke and Nietzsche. Conrad and Woolf. The resulting personal odyssey is an engaging blend of self-discovery, cultural commentary, reporting, criticism, and autobiography -- an inspiration for anyone in love with the written word.

The Western Canon of Classic Literature Simon and Schuster
Discusses how pets have played an important role in life in the White

House and relates anecdotes of presidential pets from the Kennedy administration to Bo, the Obama's Portuguese water dog.

Great Books of the Western World: Machiavelli. Hobbes Baker Books
The Science of Right has for its object the principles of all the laws which it is possible to promulgate by external legislation. Where there is such a legislation, it becomes, in actual application to it, a system of positive right and law; and he who is versed in the knowledge of this system is called a jurist or jurisconsult (*jurisconsultus*). A practical jurisconsult (*jurisperitus*), or a professional lawyer, is one who is skilled in the knowledge of positive external laws, and who can apply them to cases that may occur in experience. Such practical knowledge of positive right, and law, may be regarded as belonging to jurisprudence (*jurisprudentia*) in the original sense of the term.

[From the Great Books of Western Civilization](#) Harper Collins

Great Books programs have become increasingly popular among Christian colleges, high schools, and even home schoolers. This one-of-a-kind book is designed for those who do not have the opportunity to attend such a program but are still interested in directly engaging with the Western Canon. It contains substantial excerpts from thirty of the most important books in history, with each excerpt followed by an essay placing the work in historical and Christian context. Readers can learn directly from such authors and thinkers as Plato, Aristotle, Augustine, Dante, Chaucer, Shakespeare, Milton, de Tocqueville, Freud, and Chesterton. Selected as one of 2011's Best Books for Preachers by *Preaching Magazine*

A Perilous Perspective Springer

Analyzes the art of reading and suggests ways to approach literary works, offering techniques for reading in specific literary genres ranging from fiction, poetry, and plays to scientific and philosophical works.

How Fifty Great Books (and Two Not-So-Great Ones) Saved My Life Houghton Mifflin Harcourt

A Dominican-born academic tells the story of how the Great Books transformed his life—and why they have the power to speak to

people of all backgrounds What is the value of a liberal education? Traditionally characterized by a rigorous engagement with the classics of Western thought and literature, this approach to education is all but extinct in American universities, replaced by flexible distribution requirements and ever-narrower academic specialization. Many academics attack the very idea of a Western canon as chauvinistic, while the general public increasingly doubts the value of the humanities. In *Rescuing Socrates*, Dominican-born American academic Roosevelt Mont á s tells the story of how a liberal education transformed his life, and offers an intimate account of the relevance of the Great Books today, especially to members of historically marginalized communities. Mont á s emigrated from the Dominican Republic to Queens, New York, when he was twelve and encountered the Western classics as an undergraduate in Columbia University ' s renowned Core Curriculum, one of America ' s last remaining Great Books programs. The experience changed his life and determined his career—he went on to earn a PhD in English and comparative literature, serve as director of Columbia ' s Center for the Core Curriculum, and start a Great Books program for low-income high school students who aspire to be the first in their families to attend college. Weaving together memoir and literary reflection, *Rescuing Socrates* describes how four authors—Plato, Augustine, Freud, and Gandhi—had a profound impact on Mont á s ' s life. In doing so, the book drives home what it ' s like to experience a liberal education—and why it can still remake lives.

The Great Books of the Western World Simon and Schuster

The modern materialist approach to life has conspicuously failed to explain such central mind-related features of our world as consciousness, intentionality,

meaning, and value. This failure to account for something so integral to nature as mind, argues philosopher Thomas Nagel, is a major problem, threatening to unravel the entire naturalistic world picture, extending to biology, evolutionary theory, and cosmology. Since minds are features of biological systems that have developed through evolution, the standard materialist version of evolutionary biology is fundamentally incomplete. And the cosmological history that led to the origin of life and the coming into existence of the conditions for evolution cannot be a merely materialist history, either. An adequate conception of nature would have to explain the appearance in the universe of materially irreducible conscious minds, as such. Nagel's skepticism is not based on religious belief or on a belief in any definite alternative. In *Mind and Cosmos*, he does suggest that if the materialist account is wrong, then principles of a different kind may also be at work in the history of nature, principles of the growth of order that are in their logical form teleological rather than mechanistic. In spite of the great achievements of the physical sciences, reductive materialism is a world view ripe for displacement. Nagel shows that to recognize its limits is the first step in looking for alternatives, or at least in being open to their possibility.

A Great Idea at the Time Disruptive Pub

After his daughter was born prematurely in 2010, Burriesci set out to write a book for her 18th birthday. In short, honest, and simple letters, Burriesci teaches his daughter about 32 great books, from Plato to Karl Marx, and how their lessons have applied to his life. As someone who has spent a long and successful career advocating for great literature, Burriesci defends the titles in this series of tender and candid letters, rich in personal experience and full of humor. *Dead White Guys* is also a timely defense of the great books, arriving in the middle of a national debate about the fate of these books in high schools and universities around the country. Burriesci shows how the great books can enrich our lives as individuals, as citizens, and in our careers.

Mortimer J. Adler and the Great Books Idea Open Court

The *Oresteia* is the only trilogy of tragedy plays to survive from Ancient Greece. Agamemnon, Libation Bearers, and Eumenides have established the enduring themes of Greek tragedy--the inexorable nature of Fate, the relationship between justice, revenge, and religion. In this family history, Fate and the gods decree that each generation will repeat the crimes and endure the suffering of their forebears. When Agamemnon is murdered by his wife, Clytemnestra, their son Orestes must avenge his father's death. Only Orestes' appeal to the goddess Athena saves him from his mother's Furies, breaking the bloody chain; together gods and humans inaugurate a way of just conduct that will ensure stable families and a strong community. The *Oresteia* is majestic as theater and as literature, and this new translation seeks to preserve both these qualities. The introduction and notes emphasize the relationship between the scenes, ideas, and language that distinguishes this unique work.

The Great Conversation About Great Ideas Penguin

Complements Great Books of the Western World; includes only short works and excerpts from longer works.

The Daily Show (The Book) Phoemixx Classics Ebooks

An all-new historical mystery in this USA Today bestselling series featuring beloved inquiry agents Lady Kiera Darby and her dashing husband, Sebastian Gage. Argyll, Scotland. July 1832. After a trying few months in Edinburgh, Kiera and her husband and investigative partner, Sebastian Gage, are eager to escape to the Highlands with their three-month-old child. Kiera is overjoyed for her cousin Rye and her detractor-turned-friend Charlotte who are being wed in a private ceremony at the estate of Rye's great-uncle, the Marquess of Barbreck, in what seems to be the perfect wedding party. But when Kiera is invited to peruse Barbreck's extensive art collection, she is disturbed to discover that one

of his most priceless paintings seems to be a forgery. The marquess's furious reaction when she dares to mention it leaves her shaken and the entire house shocked. For it turns out that this is not the first time the word forgery has been uttered in connection with the Barbreck household. Matters turn more ominous when a maid from a neighboring estate is found murdered where the forged painting hangs. Is her death connected to the forgeries, perhaps a grisly warning of what awaits those who dare to probe deeper? With unknown entities aligned against them, Kiera and Gage are forced to confront the fact that they may have underestimated their opponent. For they are swiftly made to realize that Charlotte's and Rye's future happiness is not the only issue at stake, and this stealthy game of cat and mouse could prove to have deadly consequences.

Six Great Ideas John Wiley & Sons

This 2 volume set gives a synopsis of more than 500 of these Great Books of The Western World by 161 authors which originally consisted of over 6 feet of books in 54 volumes. The Great Books of Western The Western World are books that are thought to constitute an essential foundation in the literature of Western culture. Specified sets of great books typically range from 100 to 150, though they differ according to purpose and context. For instance, some lists are built to be read by undergraduates in a college semester system (130 books, Torrey Honors Institute), some are compiled to be sold as a single set of volumes (500 books, Mortimer Adler), while some lists aim at a thorough literary criticism (2,400 books, Harold Bloom). The great books are those that tradition, and various institutions and authorities, have regarded as constituting or best expressing the foundations of Western culture (the Western canon is a similar but broader designation); derivatively the term also refers to a curriculum or method of education based around a list of such books. Mortimer Adler lists three criteria for including a book on the list: * the book has contemporary significance; that is, it has relevance to the problems and issues of our times; * the book is inexhaustible; it can be read again and again with benefit; "This is an exacting criterion, an ideal that is

fully attained by only a small number of the 511 works that we selected. It is Conversation About Great Ideas approximated in varying degrees by the rest." * the book is relevant to a large number of the great ideas and great issues that have occupied the minds of thinking individuals for the last 25 centuries. The Great Books of the Western World is a hardcover 60-volume collection (originally 54 volumes) of the books on the great books list (about 517 individual works). Many of the books in the collection were translated into English for the first time. This book is designed to be a state of the art, superb academic reference work and provide an overview of the topic and give the reader a structured knowledge to familiarize yourself with the topic at the most affordable price possible. The accuracy and knowledge is of an international viewpoint as the edited articles represent the inputs of many knowledgeable individuals and some of the most current knowledge on the topic, based on the date of publication.

The Classic Guide to Intelligent Reading Rowman & Littlefield

Today the classics of the western canon, written by the proverbial "dead white men," are cannon fodder in the culture wars. But in the 1950s and 1960s, they were a pop culture phenomenon. The Great Books of Western Civilization, fifty-four volumes chosen by intellectuals at the University of Chicago, began as an educational movement, and evolved into a successful marketing idea. Why did a million American households buy books by Hippocrates and Nicomachus from door-to-door salesmen? And how and why did the great books fall out of fashion? In A Great Idea at the Time Alex Beam explores the Great Books mania, in an entertaining and strangely poignant portrait of American popular culture on the threshold of the television age. Populated with memorable characters, A Great Idea at the Time will leave readers asking themselves: Have I read Lucretius's De Rerum Natura lately? If not, why not?
