This master's thesis examines gender and social roles seen in dialogue in the American classic novel, *The Great Gatsby*, by F. Scott Fitzgerald. The researcher conducted a coding and rhetorical analysis to determine if elements of muted group theory were in the novel. Muted group theory was developed by Edwin and Shirley Ardener after their research indicated that a culture's values and social structure were voiced through rhetoric. The theory states that dominance in certain groups mutes, or silences, others from communicating effectively. Five passages from *The Great Gatsby* were selected for this analysis. These passages highlighted dialogue between the main male and female characters in the book, and were of scholarly importance. The researcher created four research questions from which the study flowed. Results of the study indicated that some groups in *The Great Gatsby* were muted due to their gender, social status, race, or religion. Coding indicated that compliance and manipulation were the most common forms of muted group dominance found in the book. These results are closely linked to the reality of society in the 1920s, when the book was written, as F. Scott Fitzgerald is an author who wrote heavily from his own experiences and surroundings.

This book shows how secondary and post-secondary teachers can help students become more responsive to the ethical themes and questions that emerge from the narratives they study. It helps teachers to integrate character education into the classroom by focusing on a variety of ways of drawing instructive insights from fictional life narratives. The case studies and questions throughout are designed to awaken students' moral imagination and prompt ethical reflection on four protagonists' motivations, aspirations, and choices. The book is divided into two parts. The first provides a theoretical approach while the second features case studies to apply this approach to the study of four literary characters: Sydney Carton from *Tale of Two Cities* Jay Gatsby from *The Great Gatsby* Elizabeth Bennet from *Pride and Prejudice* Janie Crawford from *Their Eyes Were Watching God* The questions, ideas and approaches used in these case studies can also be applied to protagonists from other narrative works in the curriculum.

Understanding The Great Gatsby Amila Jay

Bachelor Thesis from the year 2014 in the subject English Language and Literature Studies - Literature, grade: 2.0, Bielefeld University, language: English, abstract: This paper aims at comparing the illustration of elites in two different temporal episodes. The novels, which will be the basis for this comparison, are F. Scott Fitzgerald's *The Great Gatsby* and Bret Easton Ellis' *American Psycho*. The explanation of the literary choices will be delivered in the next section. Both, F. Scott Fitzgerald and Bret Easton Ellis, have created characters larger than life which partly represent the perversion of the upper classes but both also provide literally, symbolically and figuratively different approaches to escape the problems they are facing. May it be Jay Gatsby or Patrick Bateman; they both feel uncomfortable in their respective environments and strive for something their current life cannot provide. Those desires reflect the bygone and contemporary decoupling of the upper classes lives and thereby comment on society as a whole in their respective temporal context. After explaining what makes those novels predestinated for a comparison, New York as a social and cultural concept and its history will be depicted. Considering that both novels take place in New York and the geographical space clearly has an impact on the progression of the plot but also the mindset of the protagonists, New York needs to be understood first, to then derive sense from the novels taking place there. Afterwards, the term elites will be defined and set into context. After having created a working definition of the term elites, the work on the two novels will start with a temporal contextualization of the novel and the authors' lives. After doing so, the actual illustration of the elites will be analyzed. In a second step, the two novels and their depiction of the upper classes will be compared and contrasted. After identifying both, differences but also uniting factors, the conclusion will pick up the hypothesis from the beginning and on the basis of that, new questions for further research will be raised. Media and artists had and still have enhanced interest in the life and doings of elites. The reasons for that might be diverse and range from pure voyeurism to complex social criticism. Nonetheless, elites occupy artists' minds ever since and the list of authors who incorporated elites into their plays, stories or novels is long and prestigious. Even until today, the concept of elites has an undeniable impact on both, society and art.

The renowned British novelist's "casual and wittily acute guidance" on reading—and writing—great fiction (Harper's). Renowned for such classics as *A Room with a View*, *Howards End*, and *A Passage to India*, E. M. Forster was one of Britain's—and the world's—most distinguished fiction writers, a frequent nominee for the Nobel Prize in Literature. In this collection of lectures delivered at Trinity College, Cambridge, in 1927, he takes a wide-ranging look at English-language novels—with specific examples from such masters as Dickens and Austen—discussing the elements they all have in common. Using a witty, informal tone and drawing as well on his extensive readings in French and Russian literature, Forster discusses his ideas in reference to such figures as Tolstoy, Dostoevsky, and Proust; explains the difference between "flat" and "round" characters and between plot and story; and ultimately provides an "admirable and delightful" education for anyone who appreciates the art of a good book (The New York Times).

Read why in the definitive account of the 1918 Flu Epidemic. Magisterial in its breadth of perspective and depth of research, *The Great Influenza* provides us with a precise and sobering model as we confront the epidemics looming on our own horizon. As Barry concludes, "The final lesson of 1918, a simple one yet one most difficult to execute, is that...those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best. A leader must make whatever horror exists concrete. Only then will people be able to break it apart." At the height of World War I, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision of science and epidemic disease.
