LINGUISTICS FOR EVERYONE: AN INTRODUCTION, Second Edition, will capture the interest of all students, regardless of major, and offer them a thorough, engaging introduction to the science of language. To achieve this goal, the authors devised a unique arrangement of chapters that distinguishes this book from conventional introductory linguistics textbooks. Without sacrificing rigor, the authors focus on larger themes rather than on technical details or formal analysis. The book opens with a strong introductory chapter addressing basics such as how to define language, prescriptive versus descriptive grammar, differences between the human language system and other animal communication systems,

and so on. The second chapter, devoted to language, mind, and brain, addresses both psycholinguistic and neurolinguistic evidence for humans' innate capacity for language. To address core linguistics areas in depth, there are two chapters each on phonetics and phonology, morphology, syntax, and semantics. Throughout the text, special features relate the study of linguistics to the language we use in the real world and every chapter includes innovative and varied activities that review and practice the content and offer your students many opportunities to apply the knowledge in their own lives. One of the most influential works of this century, *The Myth of Sisyphus and Other Essays* is a crucial exposition of existentialist thought. Influenced by works such as *Don Juan* and the novels of Kafka, these essays begin with a meditation on suicide; the question of living or not living in a universe devoid of order or meaning. With lyric eloquence, Albert Camus brilliantly posits a way out of despair, reaffirming the value of personal existence, and the possibility of life lived with dignity and authenticity.

The Myth of Sisyphus And Other Essays Vintage Symposium is a philosophical text by Plato. It concerns itself at one level with the genesis, purpose and nature of love, and is the origin of the concept of Platonic love. Love is examined in a sequence of speeches by men attending a symposium, or drinking party. Each man must deliver an encomium, a speech in praise of Love (Eros). The party takes place at the house of the tragedian Agathon in Athens. Socrates in

his speech asserts that the highest purpose of love is to become a philosopher or, literally, a lover of wisdom. The dialogue has been used as a source by social historians seeking to throw light on life in ancient Athens, in particular upon sexual behavior, and the symposium as an institution.
