Ten years ago, a distraught freelance writer locked himself in a room and furiously scribbled his way out of a cataclysmic week. Though Mikel Jollett entered his hovel intent on penning the great American novel, when he emerged a year later, it was not with the fictional book he had in mind, but a book of songs fueled by all too real tragedy. Those songs required a band, and that band would be The Airborne

Toxic Event. This unlikely group, a collection of five players from wildly diverse musical backgrounds, became an even unlikelier success story. Defying all established conventions about how success was supposed to be achieved in the early 21st century music business, they forged their reputation on the back of a surprising smash single, expanded it through relentless touring, and solidified it with a singular body of work that blends punk, folk, pop, symphony, literature, poetry and – above all – naked honesty.

Shonda Rhimes is one of the most powerful players in contemporary American network television. Beginning with her break-out hit series *Grey's Anatomy*, she has successfully debuted *Private Practice*, *Scandal*, *How to Get Away with Murder*, *The Catch*, *For The People*, and *Station 19*. Rhimes's work is attentive to identity politics, "post-" identity politics, power, and representation, addressing innumerable societal issues. Rhimes intentionally addresses these issues

with diverse characters and story lines that center, for example, on interracial friendships and relationships, LGBTIQ relationships and parenting, the impact of disability on familial and work dynamics, and complex representations of womanhood. This volume serves as a means to theorize Rhimes's contributions and influence by inspiring provocative conversations about television as a deeply politicized institution and exploring how Rhimes fits into the implications of twenty-first century television.

Don and Betty Draper live in a picture-perfect world. He is a hard-living advertising executive - a 'mad man' - on the fast track. She's a Bryn Mawr graduate and former fashion model, now a suburban princess, mother of three children. If they've everything,

why are they so unhappy? Why is their dream come true not enough? This book explores, analyses, celebrates the world of "Mad Men" in all its aspects, and includes an interview with it's Executive Producer and an episode guide. Every few years a new television program comes along to capture and express the zeitgeist. "Mad Men" is now that show. Since premiering in July 2007, it's won many awards and is syndicated across the globe. Its imprint is evident throughout contemporary culture, from features to fashions and online debate. Its creator Matthew Weiner, a former exec producer on "The Sopranos", has created again compelling, complex characters, this time in the sophisticated go-go world of Madison Avenue through the 1960s, with the excessive drinking and smoking, as well as the playing out of the prejudices and anxieties of an era long neglected in popular culture. "Mad Men" is a zeitgeist show of the early twenty-first century, this book demonstrates, partly because its characters are an earlier, confused and conflicted version of ourselves, trying to make the best of a future unfolding at breakneck speed.
