The first inside story of one of TV's most popular and beloved dramas, Grey's Anatomy. More than fifteen years after its premiere, Grey's Anatomy remains one of the most beloved dramas on television and ABC's most important property. It typically wins its time slot and has ranked in the Top 20 most-watched shows in primetime for most of its seventeen-season run. It currently averages more than eight million viewers each week. Beyond that, it's been a cultural touchstone. It introduced the unique voice and vision of Shonda Rhimes; it made Ellen Pompeo, Sandra Oh and T.R. Knight household names; and injected words and phrases into the cultural lexicon, such as "McDreamy," "seriously," and "you're my person." And the behind-the-scenes drama has always been just as juicy as what was happening in front of the camera, from the controversial departure of Isaiah Washington to Katherine Heigl's fall from grace and Patrick Dempsey's shocking death episode. The show continued to hemorrhage key players, but the beloved hospital series never skipped a beat. Lynette Rice's How to Save A Life takes a totally unauthorized deep dive into the show's humble start, while offering exclusive intel on the behind-the-scenes culture, the most heartbreaking departures and the more polarizing plotlines. This exhaustively enthusiastic book is one that no Grey's Anatomy fan should be without.

Screen Media offers screen enthusiasts the analytical and theoretical vocabulary required to articulate responses to film and television. The authors emphasise the importance of 'thinking on both sides of the screen'. They show how to develop the skills to understand and analyse how and why a screen text was shot, scored, and edited in a particular way, and then to consider what impact those production choices might have on the audience. Stadler and McWilliam set production techniques and approaches to screen analysis in historical context. They demystify technological developments and explain the implications of increasing convergence of film and television technologies. They also discuss aesthetics, narrative, realism, genre, celebrity, cult media and global screen culture. Throughout they highlight the links between screen theory and creative practice. With extensive international examples, Screen Media is an ideal introduction to critical engagement with film and television. 'Screen Media offers a systematic approach to film and television analysis. The examples chosen by the authors are both appropriate and timely, and are presented in a very lively and readable form that will appeal to an international readership.' - Rebecca L. Abbott, Professor of Film, Video + Interactive Media, Quinnipiac University, USA

" There are moments in the history of theatre when stagecraft takes a new turn. I like to think that this happened for the American musical last week, when Tony Kushner's *Caroline, or Change* (at the Public), a collaboration with composer Jeanine Tesori and the director George C. Wolfe, bushwhacked a path beyond the narrative end of the deconstructed, overfreighted musicals of the past thirty years. " —John Lahr, *The New Yorker* Louisiana, 1963: A nation reeling from the burgeoning Civil Rights Movement and the Kennedy assassination. Caroline, a black maid, and Noah, the son of the Jewish family she works for, struggle to find an identity for their friendship. Through their intimate story, this beautiful new musical portrays the changing rhythms of a nation. Tony Kushner and composer Jeanine Tesori have created a story that addresses contemporary questions of culture, community, race and class through the lens and musical pulse of the 1960s. Tony Kushner is best known for the two-part masterpiece, *Angels in America*, recently produced by HBO as a six-hour television event, directed by Mike Nichols to universal acclaim. His other plays include *Homebody/Kabul*, *A Bright Room Called Day* and *Slavs!*; as well as adaptations of Corneille's *The Illusion*, Ansky's *The Dybbuk*, Brecht's *The Good Person of Szechuan* and Goethe's *Stella*. Current projects include: *Henry Box Brown* or *The Mirror of Slavery* and *St. Cecilia* or *The Power of Music*. He recently collaborated with Maurice Sendak on an American version of the children's opera, *Brundibar*. He grew up in Lake Charles, Louisiana, and he lives in New York. Jeanine Tesori wrote the score for *Thoroughly Modern Millie*, which won the 2002 Tony and Drama Desk Awards for Best Musical and the multiple-award-winning *Violet*.

"I know that the stereotypes of the United States are out there, ...by television shows and movies and misinformation." FORMER PRESIDENT BARACK OBAMA This book premise is simple: The world is often misled, as President Obama opined, to see the United States through the icons its pop culture has produced. ". ." it's not surprising then they get bitter, they cling to guns or religion or antipathy toward people who aren't like them or anti-immigrant sentiment or anti-trade sentiment as a way to explain their frustrations." President Obama long held that the world could be improved, that America had often self-inflicted stereotypes through its popular media and entertainment outlets. During his eight years in office, he made repeated and regular appearances on many of these social and corporate media outlets in order to ensure that his Administrations goals and accomplishments were accurately represented.
