While the term 'bestseller' explicitly relates books to sales, commercially successful books are also products of individual creative work. This Element presents a new perspective on the relationship between art and the market, with particular reference to bestselling writers and books. We examine some existing perspectives on art's relationship to the marketplace to trouble persistent binaries that see the two in opposition; we break down the monolith of the marketplace by thinking of it as made up of a range of invested, non-hostile participants such as publishing personnel and readers; we articulate the material dimensions of creative writing in the industry through the words of bestselling writers themselves; and we examine how the existence of bestselling books and writers in the world of letters bears enormous influence on the industry, and on the practice of other writers.

The Ice Dragon is an enchanting tale of courage and sacrifice for young readers and adults by the wildly popular author of the #1 New York Times bestselling *Song of Ice and Fire* series, George R.R. Martin. Lavish illustrations by acclaimed artist Luis Royo enrich this captivating and heartwarming story of a young girl and her dragon. In the world of *A Song of Ice and Fire* the ice dragon was a creature of legend and fear, for no man had ever tamed one. When it flew overhead, it left in its wake desolate cold and frozen land. But Adara was not afraid. For Adara was a winter child, born during the worst freeze that anyone, even the Old Ones, could remember. Adara could not remember the first time she had seen the ice dragon. It seemed that it had always been in her life, glimpsed from afar as she played in the frigid snow long after the other children had fled the cold. In her fourth year she touched it, and in her fifth year she rode upon its broad, chilled back for the first time. Then, in her seventh year, on a calm summer day, fiery dragons from the North swooped down upon the peaceful farm that was Adara's home. And only a winter child—and the ice dragon who loved her—could save her world from utter destruction. This new edition of *The Ice Dragon* is sure to become a collector's item for fans of HBO's megahit *Game of Thrones*. This retrospective Michael Bishop collection of fifty short pieces (thirty-four stories, fifteen poems or prose-poems, and one amusing Moon-based play about writing SF, "The Grape Jelly and Mustard Method") spans the author's entire career, from "Asytages's Dream," written while Bishop was a college student, to

"Yahweh's Hour," an acerbic but moving work of science-fantasy political satire composed in 2020. The collection's most distinctive attribute, however, lies in the fact that no contribution is longer than 3,000 words and most are shorter, a kind of Palm-of-the-Hand Stories for lovers of short fiction, heartfelt pieces that afford the reader as much meat as they do flash. "A Few Last Words for the Late Immortals," set on Saturn's largest moon, Titan, embodies a requiem for the entire human species. "Philip K. Dick is dead, a lass" memorializes in verse science fiction's preeminent bard of the reality breakdown. "Love's Heresy" and "The Library of Babble" appear to be channeling the labyrinthine mind of Jorge Luis Borges, albeit with surprising jinks all their own. And the list of narrative explorations grows and grows . . . Humor and horror, music and whimsy, primates and pathology, mice and men, religion and rebellion: these stories and poems cover the waterfront of human experience while acknowledging the singularity of each human life.
