The first thing you need to do is to get information into your GSAK database. Although you can do this manually by adding your own waypoints, the easiest way to do this is to use the main menu option "Geocaching.com access=>Get geocaches" Another way is to load a GPX or LOC file. Also, please see items 2 and 10 of the GSAK FAQ GPX files can come from many sources, but the most common is from ...
