The National Eligibility Test (NET) is conducted on behalf of the University Grants Commission (UGC) for determining the eligibility of Indian nationals for Assistant Professorship, Junior Research Fellowship, or both, for Indian Universities and Colleges. The National Testing Agency (NTA) is conducted UGC NET

Examination for 'Junior Research Fellowship' and eligibility for 'Assistant Professor' in 83 subjects in Computer Based Test (CBT) mode. Awarding of Junior Research Fellowship (JRF) and/or Eligibility for Assistant Professorship depends on the aggregate performance of the candidate in Paper-I and Paper-II of UGC-NET. The candidates qualifying only for Assistant Professorship are not to be considered for the awarding of JRF. Candidates who qualify for the eligibility test for Assistant Professorship are governed by the rules and regulations for recruitment of

Assistant Professor of the concerned universities/colleges/state governments.

All articles published have been reviewed and recommended by at least two members of the editorial board.
Monitoring Educational Performance in the Caribbean Chandresh Agrawal
This study represents a first attempt of providing a comprehensive quantification of educational outcomes in the Caribbean region. Its main objectives are: (a) to define a set of operationally relevant education indicators (b) to provide a database of comparable education indicators in Caribbean countries where data is available, namely Belize, Dominica, Dominican Republic, Grenada, Guyana, Jamaica, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines and

Trinidad and Tobago and (c) to propose methods on how the common set of indicators can be used for analyses of the education sectors. This exercise is all the more important within the framework of the current Education For All (EFA) and Millenium Development Goals (MDGs) initiatives which require the identification and monitoring of relevant indicators to establish where the countries stand in relation to the target of universal primary education. After a systematic review of educational indicators in coverage, efficiency and quality which leads to specific recommendations on the type of indicator relevant to operational diagnostics of the education sectors, the study provides a detailed review of the Caribbean status in producing education indicators and demonstrates how a new database can be used to depict where the education sectors stand. Building on these methods and findings, its final section presents a set of specific recommendations to the Caribbean countries on how to improve the diagnostics of their education sectors.
