When philosophy rescued him from an emotional crisis, Jules Evans became fascinated by how ideas invented over two thousand years ago can help us today. He interviewed soldiers, psychologists, gangsters, astronauts, and anarchists and discovered the ways that people are using philosophy now to build better lives.

Ancient philosophy has inspired modern communities – Socratic cafés, Stoic armies, Epicurean communes – and even whole nations in the quest for the good life. This book is an invitation to a dream school with a rowdy faculty that includes twelve of the greatest philosophers from the ancient world, sharing their lessons on happiness, resilience, and much more. Lively and inspiring, this is philosophy for the street, for the workplace, for the battlefield, for love, for life.

Being Here Andrews McMeel Publishing

A practical and empowering approach to the age-old quest to let go of the thoughts and feelings that block happiness, impede change, and hinder self-acceptance Anyone who has dipped a toe into any of the world's spiritual traditions knows that letting go and letting be are key. But how? In this fresh, frank, and powerful guide, Peter Russell allows readers to see that the things we get hung up on are generally not tangible problems in the present, but are instead thoughts, feelings, interpretations, beliefs, or expectations we have about them. These are not actual things; they exist only in our minds. And we can strip these "no-things" of their power and let them go by making a simple change of mind. Russell boils this letting go down to remarkably easy methods of accepting, acknowledging, recognizing, and even befriending what we tend to run from. This paradoxical practice generates peace of mind, fresh perspectives, and wisdom in action. In turbulent times like ours, this is a true power, one available to us all.

101 Jolts of Inspiration Houghton Mifflin Harcourt

A brilliant distillation of the key ideas behind successful self-improvement practices throughout history, showing us how they remain relevant today. Self-help today is a multi-billion-dollar global industry, one often seen as a by-product of neoliberalism and capitalism. Far from being a recent phenomenon, however, the practice of self-improvement has a long and rich history, extending all the way back to ancient China. For millennia, philosophers, sages, and theologians have reflected on the good life and devised strategies on how to achieve it. Focusing on ten core ideas of self-improvement that run through the world's advice literature, Anna Katharina Schaffner reveals the ways they have evolved across cultures and historical eras, and why they continue to resonate with us today. Reminding us that there is much to learn from looking at time-honed models, Schaffner also examines the ways that self-improvement practices provide powerful barometers of the values, anxieties, and aspirations that preoccupy us at particular moments in time and expose basic assumptions about our purpose and nature.
