In this new collection of short fiction, David Denny gives voice to troubled characters caught in spiritual snares: a mass shooter dreams of angels and astronauts while awaiting capture, a young hotel clerk attempts to teach the rock star trashing his hotel suite a lesson in humility, an elderly couple surrender their lives to an approaching wildfire. As Paris Review editor Christian Kiefer says, "Denny's stories read like a catalog of earthly woes through which run a surprising thread of wonderment and grace." Reminiscent of the American blues tradition, these dozen lyrical laments remind us that even in an age of moral panic, climate disaster, pandemic, and political corruption, the world ' s fading beauty still has the power to astound us and drop us to our knees in broken praise.

The incredibly moving, darkly humorous account of one woman's fight against breast cancer. Now a BBC Drama starring Sheridan Smith. 'Carrie Bradshaw fell in Dior, I fell in Debenhams. It was May 2008, and it was spectacular. Uncomfortable heels + slippy floor + head turned by a cocktail dress = thwack. The smartphone was an incredibly successful Canadian invention created by a team of engineers and marketers led by Mike Lazaridis and Jim Balsillie. But there was a third key player involved — the community of Kitchener-Waterloo. In this book Chuck Howitt offers a new history of BlackBerry which documents how the resources and the people of Kitchener-Waterloo supported, facilitated, benefited from and celebrated the achievement that BlackBerry represents. After its few short years of explosive growth and pre-eminence, BlackBerry lost its market to digital juggernauts Apple, Samsung and Huawei. No surprises there. Like Nokia and Motorola before it, BlackBerry was eclipsed. Shareholders lost billions. Thousands of employees lost jobs. Bankruptcy was avoided but the company's founding geniuses were gone, leaving an operation that today is only

a fragment of what had been. For Kitchener-Waterloo — as Chuck Howitt tells the story — the BlackBerry experience is a mixed bag of disappointments and major ongoing benefits. The wealth it generated for its founders produced two very important university research institutes. Many recent digital startups have taken advantage of the city's pool of talented and experienced tech workers and ambitious, well-educated university grads. A strong digital and tech industry thrives today in Kitchener-Waterloo — in a way a legacy of the BlackBerry experience. Across Canada, communities hope for homegrown business successes like BlackBerry. This book underlines how a mid-sized, strong community can help grow a world-beating company, and demonstrates the importance of the attitudes and decisions of local institutions in enabling and sustaining successful innovation. Canada has a lot to learn from BlackBerry Town.

In 2009, BlackBerry controlled half of the smartphone market.

Today that number is one percent. What went so wrong? *Losing the Signal* is a riveting story of a company that toppled global giants before succumbing to the ruthlessly competitive forces of Silicon Valley. This is not a conventional tale of modern business failure by fraud and greed. The rise and fall of BlackBerry reveals the dangerous speed at which innovators race along the information superhighway. With unprecedented access to key players, senior executives, directors and competitors, *Losing the Signal* unveils the remarkable rise of a company that started above a bagel store in Ontario. At the heart of the story is an unlikely partnership between a visionary engineer, Mike Lazaridis, and an abrasive Harvard Business school grad, Jim Balsillie. Together, they engineered a pioneering pocket email device that became the tool of choice for presidents and CEOs. The partnership enjoyed only a brief moment on top of the world, however. At the very moment BlackBerry was ranked the world's fastest growing company internal feuds and chaotic growth crippled the company as it faced its gravest test: Apple and Google's entry in to mobile phones. Expertly told by acclaimed journalists, Jacquie McNish and Sean Silcoff, this is an entertaining, whirlwind narrative that goes behind the scenes to reveal one of the most compelling business stories of the new century.
