Have you ever wondered what a guide dog does? How do they know to lead a blind owner? Can they understand traffic lights? Most importantly, how does the owner know where to pick up the poop? This memoir answers these questions—and more. It tells what guide dogs are supposed to do. They're smart, loyal and well-trained—but not all dogs are created alike. Musket is proof of that. He's definitely got a thing for treats and belly rubs. For the first time, the dog has his say. (Of course he needed a little help with the typing, since he doesn't have opposable thumbs. That's where author Mark Carlson came in. Still, Musket is the brains of the outfit.) Mark and Musket tell their story with humor, emotion, and Musket's occasional contradictions. And at the end of the day, Musket somehow manages to be a great guide dog too. Confessions of a Guide Dog was written so a wonderful, devoted dog could reach out to those who haven't been lucky enough to meet him. He'll make you smile, laugh, cry, and want to give him treats. This is their story. (And they're sticking to it.)

Can people have authentic social relationships with speechless animals? What does your dog mean to you, your understanding of yourself, and your perceived and actual relationships with other s and the world? What do you mean to your dog? In **Understanding Dogs**, sociologist and faithful dog companion Clinton R. Sanders explores the day-to-day experiences of living and working with domestic dogs. Based on a decade of research in veterinary offices and hospitals, dog guide training schools, and obediences classes -- and colored with his personal experiences and observations at and outside home with his own canine companions -- Sanders's book examines how everyday dog owners come to know their animal companions as thinking, emotional, and responsive individuals. Linking animal companionship with social as well as personal identity, **Understanding Dogs** uses detailed ethnographic data in viewing human and animal efforts to understand, manipulate, care for, and interact with each other. From nineteenth-century disapproval of what was seen as irresponsibly indulgent pet ownership among the poor to Bill Clinton's caring and fun-loving image and populist connection to the "common person" as achieved through his labrador companion Buddy, Sanders looks at how dogs serve not only as social facilitators but also as adornments to social identity. He also reveals how, while we often strive to teach and

shape our dogs' behavior, dogs often teach us to appreciate with more awareness a nourishing meal, physical warmth, a walk in the woods, and the simple joys of the immediate moment. Sanders devotes chapters to the specialized work of guide dog trainers; the problems and joys experienced by guide dog owners; the day-to-day work of veterinarians dealing with the healing, death, and euthanizing of their animal patients; and the everyday interactions, assumptions, and approaches of people who choose, for various reasons and in various ways, to spend their lives in the company of dogs. **Understanding Dogs** will interest those who live and work with animals as well as those studying the sociology of human-animal interactions.

The second part examines what most people describe as problem behaviour, which is just normal canine behaviour exhibited in the wrong place. For the dog to become a safe and fluent guide for a vision impaired person it will be necessary for it to employ the cognitive processes of selective attention, pattern recognition, categorisation, discrimination, prediction and the mental representation of knowledge and its translation into action. If the dog is to guide its vision impaired owner safely in town or city, stopping at kerbs, avoiding pedestrians and street furniture, manoeuvring around ladders and helping its owner cross roads safely, it will need to be much more than a well conditioned and unthinking robot! Written by a dog, and with helpful additions by other dogs, *How to Be a Dog* is essential reading not only for all canines but also for their owners and dog lovers, providing an insight into their pet's sometimes curious behaviour. As you'd expect from a book written by a dog about humans, it's irreverent, cynical and disrespectful. Dogs provide helpful observations and advice on specific issues: for example, how to retain any semblance of self-esteem while wearing the 'Cone of Shame' anti-scratch collar or how to really frustrate your owner when playing 'fetch'. *How to Be a Dog* is the official rulebook of the doggie world - a hilarious guide for living with - or putting up with - humans, and always getting the upper hand (or paw).
