From the remote mountainous regions of the Caucasus in southeastern Europe comes the Caucasian Mountain Dog, an ovcharka breed whose origins trace back two millennia. Employed by Russian shepherds to protect the flocks from predators, the Caucasian Mountain Dog is a discerning guardian, wary of strangers, that is at once fearless and impressive. The author, breeder and exhibitor, Stacy L.G. Kubyn shares her insight into this remarkable Russian breed as she traces its origins in the countries of the former USSR and its spread to the United States, where she organized the breed's first parent club. This Comprehensive Owner's Guide also offers a candid view of the breed's characteristics and temperament, including sound advice about owning this powerful, demanding working breed. New owners will welcome the well-prepared chapter on finding a reputable breeder and selecting a healthy, sound puppy. Chapters on puppy-proofing the home and yard, purchasing the right supplies for the puppy as well as house-training, feeding, and grooming are illustrated with photographs of handsome adults and puppies. In all, there are over 135 full-color photographs in this useful and reliable volume. Can people have authentic social relationships with speechless animals? What does your dog mean to you, your understanding of yourself, and your perceived and actual relationships with other s and the world? What do you mean to your dog? In Understanding Dogs, sociologist and faithful dog companion Clinton R. Sanders explores the day-to-day experiences of living and working with domestic dogs. Based on a decade of research in veterinary offices and hospitals, dog guide training schools, and obediences classes -- and colored with his personal experiences and observations at and outside home with his own canine companions -- Sanders's book examines how everyday dog owners come to know their animal companions as thinking, emotional, and responsive individuals. Linking animal companionship with social as well as personal identity, Understanding Dogs uses detailed ethnographic data in viewing human and animal efforts to understand, manipulate, care for, and interact with each other. From nineteenth-century disapproval of what was seen as irresponsibly indulgent pet ownership among the poor to Bill Clinton's caring and fun-loving image and populist connection to the "common person" as achieved through his labrador companion Buddy, Sanders looks at how dogs serve not only as social facilitators but also as adornments to social identity. He also reveals how, while we often strive to teach and shape our dogs' behavior, dogs often teach us to appreciate with more awareness a nourishing meal, physical warmth, a walk in the woods, and the simple joys of the immediate moment. Sanders devotes chapters to the specialized work of guide dog trainers; the problems and joys experienced by guide dog owners; the day-to-day work of veterinarians dealing with the healing, death, and euthanizing of their animal patients; and the everyday interactions, assumptions, and approaches of people who choose, for various reasons and in various ways, to spend their lives in the company of dogs. Understanding Dogs will interest those who live and work with animals as well as those studying the sociology of human-

animal interactions.

You know the tale of the little girl with a curl, in the middle of her forehead? Well, my guide dog uska's a bit like that. I only say a bit because when he's good, he is very, very good. But he's never bad, and he's never horrid. He does however, have his moments. Oh, I have mine too. When it comes to being blind, I'm not very good at it and Uska has to cope with that. I guess some days we drive each other nuts, which is hardly surprising because we truly are a 24/7 partnership. Mind you, I do love the bones of him and not just because he's totally changed my life. Since I first got him, I've been wondering what is really going on in that head of his, especially when he's working with me in supermarkets, or at parties, or on trains and even in hospital casualty wards. During the early months, he was the only dog I knew who could make his harness look rakish, like a lovable rascal in an old Hollywood movie. If he'd spent as much time learning to work with me, as he spent on artfully dodging his way to any dropped chips, he'd have been Guide Dog of the year. As it was, he managed to guide me down the aisle and a rock sliding mountain. He played paramedic for a day and stayed right by my side as my health got worse and worse. All this before he was 3 years old. 'Confessions of a Guide Dog' is Uska's version of events, during that extraordinary first year. His 'lick-n-tell' memoirs are as loyal and loving as a Labrador could make them, but they do come from a dog and dogs don't lie. Expect some home truths about the human race, blind living and dog loving, all told with a humour that reflects the effect he has on people around him. This should spread to everyone who reads them. Despite our teething problems, we made it, largely thanks to the training efforts of the team at Guide Dogs. And he did make me laugh, still does in fact. Now he's getting on a bit, he's more precious than ever, So, I'd like to help raise funds for more guide dogs. At least 15% to 25% of our writer's royalties will go to Guide Dogs for the Blind. We thank you now, for any support you give.

How to Be a Dog Alpha Books

Have you ever wondered what a guide dog does? How do they know to lead a blind owner? Can they understand traffic lights? Most importantly, how does the owner know where to pick up the poop? This memoir answers these questions—and more. It tells what guide dogs are supposed to do. They 're smart, loyal and well-trained—but not all dogs are created alike. Musket is proof of that. He 's definitely got a thing for treats and belly rubs. For the first time, the dog has his say. (Of course he needed a little help with the typing, since he doesn 't have opposable thumbs. That 's where author Mark Carlson came in. Still, Musket is the brains of the outfit.) Mark and Musket tell their story with humor, emotion, and Musket 's occasional contradictions. And at the end of the day, Musket somehow manages to be a great guide dog too. Confessions of a Guide Dog was written so a wonderful, devoted dog could reach out to those who haven 't been lucky enough to meet him. He 'll make you smile, laugh, cry, and want to give him treats. This is their story. (And they 're sticking to it.)
