#### Aged Care Guide

The manual handling of  
people (MHP) is known  
to be associated with  
high incidence of  
musculoskeletal  
disorders for aged  
care staff.

Environment-related  
MHP interventions,  
such as appropriate  
seated heights to aid  
sit-to-stand  
transfers, can reduce  
staff injury while  
improving the  
patient's mobility.
