Ending Violence Against Women

Bowling Green, Ohio : Bowling Green State University Popular Press

The global war on terror (GWOT) and the battles with specific Islamist groups is, to some degree, a war of ideas. With a better understanding of Islamic concepts of war,

peace, and Muslim relations with non-Muslims, those fighting the GWOT may gain support and increase their efficacy. The authors explain the principles of jihad and war and their conduct as found in key Islamic texts, the controversies that have emerged from the Quranic verses of war and peace, and the conflict between liberal or moderate Islamic voices and the extremists on matters such as the definition of combatants, treatment of hostages, and suicide attacks.

In the late 1970s, while students at Cal Arts, Tony Oursler and Mike Kelley formed a band called first, polka Dot and the Spots, and finally, The Poetics. This little-known musical aggregation was preceded perhaps only by The Weirdos (an early LA punk band with members from Cal Arts) as one of the first New Wave Art Rock bands of that period. Inspired by Laurie Anderson's class at Cal Arts, Kelley and Oursler's band was experimenting with ways to integrate visual arts with music. This limited edition package documents the brief life of The Poetics.

In one of my books - "Who Moved the Stone?" I had promised to deal with the anomaly, where believers were reading simple English, yet were so conditioned that they were understanding exactly the opposite of what they were reading. The following story from real life will not only illustrate the point but will also elucidate our present case - "Resurrection or Resuscitation" I was about to leave for the Transvaal (South Africa) on a lecture tour, so I phoned my friend Hafiz Yusuf Dadoo of Standerton, informing him of my impending visit, as well as to inquire whether he needed anything from Durban. He said that as he was taking up Hebrew, I should try and obtain a Bible in the Hebrew language with a translation in English side by side. I went to the "Bible House" in Durban.

Child Migration in Africa explores the mobility of children without their parents within West Africa. Drawing on the experiences of children from rural Burkina Faso and Ghana, the book provides rich

material on the circumstances of children's voluntary migration and their experiences of it. Their accounts challenge the normative ideals of what a 'good' childhood is, which often underlie public debates about children's migration, education and work in developing countries. The comparative study of Burkina Faso and Ghana highlights that social networks operate in ways that can be both enabling and constraining for young migrants, as can cultural views on age- and gender-appropriate behaviour. The book questions easily made assumptions regarding children's experiences when migrating independently of their parents and contributes to analytical and cross-cultural understandings of childhood. Part of the groundbreaking Africa Now series, *Child Migration in Africa* is an important and timely contribution to an under-researched area.

The History of al- abar Vol. 13 DIANE Publishing
Islam is the only religion which teaches the existence of a PERFECT God. A perfect God means that there is no sharer in His Nature and His Attributes: "Say: He is God, the One and Only; God, the Eternal, Absolute; He begetteth

not, nor is He begotten; and there is none like unto Him." (Holy Qur'an, 112:1-4) There has appeared a man in Benoni. He is not qualified in theology, but is fondly cherishing the self-delusion that he is an apostle of Christ, appointed by God to convert Muslims to Christianity. Because he is a lawyer by profession, he is adept at juggling with words and quoting the Holy Qur'an totally out of context without knowing a word of Arabic. He wants Muslims to believe that Jesus was also a God, a belief that is abhorrent to us, because it is an antithesis of the Absolute perfection of Allah (swt).

In recent years, China and India have become the most important economic partners of Africa and their footprints are growing by leaps and bounds, transforming Africa's international relations in a dramatic way. Although the overall impact of China and India's engagement in Africa has been positive in the short-term, partly as a result of higher returns from commodity exports fuelled by excessive demands from both countries, little research exists on the actual impact of China and India's growing involvement on Africa's economic transformation. This book examines in detail the opportunities and challenges posed by the increasing presence of China and India in Africa, and

proposes critical interventions that African governments must undertake in order to negotiate with China and India from a stronger and more informed platform. Sing a Song of Social Significance Columbia University Press

Several specific objectives have had wide recognition in the arts community, namely: to broaden the audience for the performing arts, to determine the applicability of sophisticated tools of marketing to the problem of generating demand for the arts, to find the best predictors of arts attendance, and to develop strategies that will appeal to those who, by these predictors, are potential attenders. This research report summarizes a study conducted in 1977 by Alan R. Andreasen and Russell W. Belk. The investigators collected new audience data in a carefully controlled group of surveys in four southern cities (Atlanta, Baton Rouge, Columbia, and Memphis), and applied to these data a number of sophisticated measuring and marketing techniques to discover efficient and effective methods for inducing marginal attenders of the performing arts to become frequent patrons. Although no hitherto untried means to this end were uncovered, this publication makes advanced techniques more comprehensible and accessible to arts administrators. In addition, by analyzing characteristics that

move or do not move people to attend performing arts events, and from that analysis deriving strategies capable of altering factors that lead to nonattendance, enough practical conclusions were reached to recommend an extended program of experimentation in the four cities studied. (BZ)

Africa's Informal Workers is a vigorous examination of the informalization and casualization of work, which is changing livelihoods in Africa and beyond. Gathering cases from nine countries and cities across sub-Saharan Africa, and from a range of sectors, this volume goes beyond the usual focus on household 'coping strategies' and individual agency, addressing the growing number of collective organizations through which informal workers make themselves visible and articulate their demands and interests. The emerging picture is that of a highly diverse landscape of organized actors, providing grounds for tension but also opportunities for alliance. The collection examines attempts at organizing across the formal-informal work

spheres, and explores the novel trend of transnational organizing by informal workers. Part of the ground-breaking Africa Now series, *Africa's Informal Workers* is a timely exploration of deep, ongoing economic, political and social transformations.

Islamic Fundamentalisms and the Gulf Crisis Lonely Planet

This volume deals with the aftermath of the decisive battle at al-Qadisiyyah described in the previous volume. First, the conquest of southern Iraq is consolidated; in rapid

succession there follow the accounts of the battles at Burs and Basra. Then in 16/637 the Muslim warriors make for the capital al-Mada'in, ancient Ctesiphon, which they conquer after a brief siege. The Persian king seeks refuge in Hulwan, leaving behind most of his riches, which are catalogued in great detail. In the same year the Muslim army deals the withdrawing Persians another crushing blow at the battle of Jalula. This volume is important in that it describes how the newly conquered territories are at first administered. As the climate of al-Mada'in is felt to be unwholesome, a new city is planned on the Tigris. This is al-Kufa, which is destined to play an important role as the capital city of the fourth caliph, 'Ali. The planning of al-Kufa is set forth in considerable detail, as is the building of its main features--the citadel and the great congregational mosque. After this interlude there follow accounts of the conquests of a string of towns in northern Mesopotamia, which bring the Muslim fighters near the border with al-Jazirah. That region is conquered in 17/638. The history of its conquest is preceded by an account of the Byzantines'

siege of the city of Dimashq. Also in this year, 'Umar is recorded to have made a journey to Syria, from which he is driven back by a sudden outbreak of the plague, the so-called Plague of 'Amwas. The scene then shifts back to southwestern Iran, where a number of cities are taken one after another. The Persian general al-Hurmuzan is captured and sent to Medina. After this, the conquest of Egypt--said to have taken place in 20/641--is recorded.

The volume concludes with a lengthy account of the crucial battle at Nihawand of 21/642. Here the Persians receive a blow that breaks their resistance definitively. This volume abounds in sometimes very amusing anecdotes of man-to-man battles, acts of heroism, and bizarre, at times even miraculous events. The narrative style is fast-moving, and the recurrence of similar motifs in the historical expose lends them authenticity. Many of the stories in this volume may have begun as yarns spun around campfires. It is not difficult to visualize an early Islamic storyteller regaling his audience with accounts that ultimately found their way to the file on conquest

history collected by Sayf ibn 'Umar, al-Tabari's main authority for this volume. A discounted price is available when purchasing the entire 39-volume History of al-Tabari set. Contact SUNY Press for more information.

Islamic Legal Interpretation Zed Books Ltd.

Following the remarkable resurgence of Islamic political activism in recent decades, radical Islamic movements now have a presence in almost every Muslim country and form the major opposition forces to the established regimes in the Middle East.

This important book deepens our understanding of the influence of contemporary Islam by providing a definitive history of the meteoric rise of the mother organization of all modern Islamic movements--the Society of the Muslim Brothers. Founded in 1928 by a young primary schoolteacher, Hasan al-Banna, the Society rose to become the largest mass movement in modern Egyptian history in less than two decades, clashing with the ruling elite on a wide range of issues.

Drawing on a wealth of sources which include material by the Society's veterans

and dissidents, the Society's internal publications from the 1930s and early 1940s, a collection of Hasan al-Banna's letters to his father, and security files from the Egyptian National Archives, the author examines the socio-economic and cultural factors which facilitated the movement's expansion and analyzes the keys to its success.
