Guides, Tips, and Products

The term ‘ manual ’ or ‘ guide ’ both usually refer to a document whose main aim is to provide information or instructions. Their purpose is to give the adequate information or instructions that may be required by the user. They are both commonly used in relation to machinery, consumer products, training, technical instruction, etc.

How to Create a User Manual (with Pictures) - wikiHow

Software, computers, games, and devices require user manuals, guides that explain how to use the product (and how not to). A user manual is a formal writing piece with a specific structure, and should be written by someone who is intimately familiar with the product such as a technical writer or the product designer.
