The essential handbook for doing historical research in the twenty-first century The Princeton Guide to Historical Research provides students, scholars, and professionals with the skills they need to practice the historian's craft in the digital age, while never losing sight of the fundamental values and techniques that have defined historical

scholarship for centuries. Zachary Schrag begins by explaining how to ask good questions and then guides readers step-by-step through all phases of historical research, from narrowing a topic and locating sources to taking notes, crafting a narrative, and connecting one's work to existing scholarship. He shows how researchers extract knowledge from the widest range of sources, such as government documents, newspapers, unpublished manuscripts, images, interviews, and datasets. He demonstrates how to use archives and libraries, read sources critically, present claims supported by evidence, tell compelling stories, and much more. Featuring a wealth of examples that illustrate the methods used by seasoned experts, The Princeton Guide to Historical Research reveals that, however varied the subject matter and sources, historians share basic tools in the quest to understand people and the choices they made. Offers practical step-by-step guidance on how to do historical research, taking readers from initial questions to final publication Connects new digital technologies to the traditional skills of the historian Draws on hundreds of examples from a broad range of historical topics and

approaches Shares tips for researchers at every skill level

Evernote Every Day, by Jeremy Roberts, brings you more from Evernote. Through a series of practical, easy to follow guides you'll discover new and amazing ways to take the way you use Evernote to a whole new level. This book is a results of years of research and testing, tweaking, and process optimization by someone that wasn't sure what to do with Evernote at first, but now uses Evernote for everything, every day. From the basics of storing information from the web, to replacing an entire filing cabinet, to automating parts of the web to put Evernote to work for you automatically, it's all contained within this one book. What others are saying: Daniel E Gold (Author of *Evernote: The unofficial guide to capturing everything and getting things done*): "If you're looking to get started in Evernote, learn how to apply Evernote in your every day life, and in a way that doesn't talk down to you, then you need Jeremy's book! Jeremy's passion for how Evernote can help you pops right out of the page. His simple directions on how to get it started and get going makes you wonder what you ever did without his guide!" Mike Vardy (Writer - Talker - Productivityist): "If you're looking for a simple and accessible way to get into Evernote, this book is going to be

right up your alley. Jeremy has crafted a great guide to get you started - and keep you going - with what can be one of most powerful tools in your productivity arsenal." Bojan Djordjevic (Productivity Blogger, Alpha Efficiency): "Jeremy pointed out some great use cases of Evernote, and if you are new to this game, this kind of material is the right way to get started. My personal favorite is diary, as it gave me motivation to scan my old physical leather notebook and immortalize it in Evernote."
