*LATEX for Beginners Workbook Edition 5, March 2014 ...*

LaTeX deals with the + and ? signs in two possible ways. The most common is as a binary operator. When two maths elements appear on either side of the sign, it is assumed to be a binary operator, and as such, allocates some space to either side of the sign. The alternative way is a sign designation. This is when you state whether a mathematical quantity is either positive or negative. This ...
