Guide To Science Isaac Asimov  
Published in 1984, this is the 4th  
version of a book which started  
life in 1960 as "The Intelligent  
Man's (sic) Guide to Science".  
Also I personally would deduct a  
star because I'm not that  
intelligent! The style is quite  
readable but the subject matter  
can get hard going at times.  
That's hardly Isaac Asimov's  
fault.
