Guided-discovery problems are ideal for group work. It is best to organize the students into groups of three to five with an even distribution of strong, average and weak students. Instruct them to work together as a team, making sure every member of the team understands the answer to each question before moving on. What is Guided Discovery?

This video will give you an introduction to the method of presenting language (usually grammar) called 'Guided Discovery'. If you like this, check out my other videos and 'Grammar for Language ...

Football/Soccer: Guided discovery practice for breaking ...

First Lesson Plan - This lesson plan deviates heavily from the original guided discovery model. It even goes so far as to forgo the use of examples and nonexamples. Students are also given a little less guidance until the end of the lesson. Second Lesson Plan - This lesson plan does not use nonexamples.

use effective guided discovery

Guided Discovery Lesson Model

Guided discovery, also known as an inductive approach, is a technique where a teacher provides examples of a language item and helps the learners to find the rules themselves. The learners are shown a problem page containing various examples of the second conditional 'If I were you,.....'.

Guided Discovery - Teaching models

Guided Discovery In between these two approaches lies “ Guided Discovery ” , which combines the best from each. Guided Discovery is a modified inductive approach in which there is exposure to language first, followed by the use of inference, and finally an explicit focus on rules and practice. There are cognitive,

The discovery technique may seem a lot like task based learning, and sometimes they may look similar since neither presents a grammar lesson upfront and or includes

“ traditional ” grammar exercises, but in fact there are several differences between the two. Task based learning puts a communication exercise before students and does not stress the grammar necessary for this task.

[Vicky Monogram EIC - Pearson ELT](#)

What is Guided Discovery? Guided Discovery is an approach that removes you, the teacher, from the main role of “ explainer ” and extends to the students the opportunity to question and discover the target grammar. When they have done that, they can then construct their own knowledge of what it means and how it is used.

Guided discovery is a focused, purposeful, yet playful technique teachers use to introduce materials, areas, or activities to students. A teacher might use a guided discovery to introduce a learning center, such as the library or computer area; a specific material, such as a box of crayons or compass; or a process, such as journal writing or quiet time.
