Amber Brown Sees Red Turtleback Books

For ten years and in two classic books, Irene Fountas and Gay Su Pinnell have described how to analyze the characteristics of texts and select just-right books to use for guided reading instruction. Now, for the first time, all of their thinking and research has been updated and brought together into Leveled Books, K-8 to form the ultimate guide to choosing and using books from kindergarten through middle school. Fountas and Pinnell take you through every aspect of leveled books, describing how to select and use them for different purposes in your literacy program and offering prototype descriptions of fiction and nonfiction books at each level. They share advice on: the role of leveled books in reading instruction, analyzing the characteristics of fiction and nonfiction texts, using benchmark books to assess instructional levels for guided reading, selecting books for both guided and independent reading, organizing high-quality classroom libraries, acquiring books and writing proposals to fund classroom-library purchases, creating a school book room. In addition, Fountas and Pinnell explain the leveling process in detail so that you can tentatively level any appropriate book that you want to use in your instruction. Best of all, Leveled Books, K-8 is one half of a new duo of resources that will change how you look at leveled books. Its companion-www.FountasandPinnellLeveledBooks.com-is a searchable and frequently updated website that includes more than 18,000 titles. With Leveled Books, K-8 you'll know how and why to choose books for your readers, and with www.FountasandPinnellLeveledBooks.com, you'll have the ideal tool at your fingertips for finding appropriate books

for guided reading. Book jacket.

Building on the Strengths of Students with Special Needs Penguin

As a must-have reference for busy teachers with little special education training, this book supplies classroom-tested instructional strategies that address the characteristics of and challenges faced by students with special needs. Dozens of differentiated strategies target teachers' anxieties and provide responsive interventions that can be used to address specifics of IEPs and learning plans. With Building on the Strengths of Students with Special Needs, special education expert Toby Karten focuses on specific disabilities and inclusive curriculum scenarios for learners in K – 12 environments. She offers valuable advice on how to prevent labels from capping student potential and encouragement to help teachers continually improve learner outcomes. By highlighting more than a dozen disability labels, this resource walks teachers through the process of reinforcing, motivating, scaffolding, and planning for instruction that targets learners of all ability levels. Included are details relevant to each disability: Possible Causes Characteristics and Strengths Classroom Implications Inclusion Strategies Typical instruction needs to match the diversity of atypical learners without viewing any disability as a barrier that impedes student achievement. Teachers must not only learn how to differentiate their approach and target specific student strengths but also maintain a positive attitude and belief that all students are capable of achieving self-efficacy.
